THE
ANNUAL ADMINISTRATION REPORT
OF THE
PHALTAN STATE
FOR THE
FASLI YEAR 1320 (1910-1911.)

FROM,

MUDHOJIRAO NAIK NIMBALKAR,

Chief of Phaltan.

To,

L. J. MOUNTFORD, ESQUIRE, I. C. S.,

Political Agent, SATARA.

Phaltan, 3rd July, 1911.

SIR,

I have the honour to submit the following Annual Report of the Administration of the Phaltan State for the Fasli year 1320 ending 6th June 1911.

2. The necessary Appendices accompany.

CHAPTER I.

General and Political.

3. Area of the State 397 square miles; Population (according to the Census of 1911) 55,960; Gross Revenue (based on the average of past five years) Rs. 2,08,209-14-6; Tribute Rs. 9,600. The relations of the State with the British Government continue to be most cordial.

4. My full name is Mudhojirao Janrao Naik Nimbalkar, Deshmukh and Jahagirdar, Chief of Phaltan. My age is 73, and I am a Kshatriya by caste. My son Vyankatrao being dead, I adopted Malojirao on the 28th December 1899. I have intermarried with the families of Gujar, Jadhav,

Shirke, Bhonsle, Ghadge and Mahadik of Satara, Malegaon, Dervan, Mungi, Malavdi and Tarale respectively.

5. In March last I fell seriously ill by an acute attack of Rheumatic pain, but thank God, I have somewhat recovered from the same under the careful treatment of Drs. M. G. Deshmukh, B. A., B. Sc., M. D. of Bombay, and A. V. Bhide, L. M. and S., Chief Medical Officer of the State.

6. The distinguished gentlemen who visited the State during the year were the Hon'ble Mr. G. S. Curtis, I. C. S., Acting Commissioner, C. D., the Hon'ble Raja Shambhusing Jadhavrao of Malegaon Bk. and Dr. M. G. Deshmukh, M. D. of Bombay.

7. The work of Jamabandi and village-inspection was done this year by the Karbhari.

8. I subscribed Rs. 700 to the Bombay Presidency Memorial Fund that was started to perpetuate the sacred memory of the late King-Emperor and Rs. 400 to the Satara District Memorial Fund.

9. The Birth-day of His Imperial Majesty, King George V, was celebrated on the 3rd June and was observed as a general Holiday in the State. All the Schools and Offices were closed. A Darbar was held and prayers were offered to God for the long life and prosperity of the King-Emperor.

10. It gives me the utmost pleasure to see that the Coronation of Their Most Excellent Imperial Majesties, King George V and his Noble Consort Queen Mary, has come off on the 22nd ultimo in London. In accordance with G. R. No. 928, dated 8-2-11, I asked for permission to present an Address to His Imperial Majesty on the occasion of the Coronation in London and was highly glad to get permission from Government for the same. An Address was, therefore, sent in a silver casket by me to you for being forwarded. On the auspicious Coronation-day a salute of guns was fired early in the morning, the State Band playing the National Anthem. A general Holiday was observed and all the Schools and Offices were closed. A Darbar was held in Shri Rama's Temple where myself, the Mankaris, the State-Officials and the Public were present. Prayers were offered to God for the long life and prosperity of Their Most Gracious Imperial Majesties. Illuminations were held. My respectful and loyal homage as well as my hearty congratulations were wired to you for being forwarded to Their Imperial Majesties.

11. There is no Residency Official in this State. The only High State Official is Mr. V. P. Chirputkar, B. A., LL. B., the State Karbhari. Hence Appendix I is omitted.

CHAPTER II.

Administration of Land.

12. The work of the Revision Survey Settlement of the State was completed in 1894, and the rates then fixed have been guaranteed for 30 years,

and are levied in two Instalments (February and March). The Rayats can pay them with ease except in bad years.

13. There is no waste land available here for cultivation.

14. There were no Alienations and Boundary Settlements during the year under report. Takavi advances of Rs. 695-8-5 were made to cultivators for agricultural improvements.

15. The year under review was a normal one and hence no remissions nor suspensions were granted. Of the total sum of Rs. 1,37,230-5-4 of past arrears and Rs. 1,25,896-8-6 of the current year's revenue, Rs. 1,35,530-10-3 were realised during the year without the exercise of any rigorous measures.

CHAPTER III.

Protection.

Legislation.

16. Appendix II gives the Laws in force in the State including those introduced during the year in question.

Military Force.

17. There is no Military Force entertained by the State. Hence Appendix III is not given.

Police.

18. The details regarding the total strength, education, conduct and cost of the Police Force in the State will be known from Appendix IV. The total number of regular Police who are engaged to do the work of preventing and detecting crime is 49, seven of whom are armed with smooth-bore rifles. The Garrison, 36 in number (out of whom 28 are armed with smooth-bore rifles and 2 with hunting ones) guard the Palace, the Treasury and the Jail. The Sowars or the Mounted Police who are armed with swords and spears are 12 in number and aid the regular Police in cases of emergency. Lastly the Shibandi—an irregular Police Force of 33—perform such miscellaneous duties as cannot be done by the regular Police.

19. During the year under review there was one case of murder and one of dacoity. Necessary steps are being taken for tracing the offenders. Petty cases of theft and other ordinary crimes were 405 against 341 of the last year, probably owing to plague.

20. During the year, one constable was dismissed and four were departmentally fined.

21. 83 against 81 of the whole Police Force can read and write, while 13 are under instruction.

22. The expenditure incurred over the Police Force was Rs. 14,701-1-2 against Rs. 14,002-1-6 of the last year.

23. The ratio of the Police to the area and that to the population were 1 : 3 and 1 : 430 respectively.

24. Appendices V, VI and VII give the statistics about the working of the Police.

25. There are 73 hereditary Police Patels (Village Police) in the State, who work partly on service tenure and partly on remuneration in cash. They aid the District Police in detecting and preventing crime.

26. Property worth Rs. 1,955-0-0 against Rs. 575-12 0 was destroyed by accidental fires during the year in question. The number of accidental deaths was 16 against 19 of the preceding year.

Criminal Justice.

27. During the year under report the number of Criminal Courts at work was the same, viz : 5 as last year. The Huzur Criminal Court is presided over by myself and ordinarily exercises High Court's Criminal Powers. The Karbhari ordinarily exercises the powers of the District Magistrate and is at times given the powers of the Sessions Court. There were two Courts of Subordinate Magistrates as last year. Appendix VIII gives the original work done by the above Criminal Courts.

28. The total number of offences tried by the original Criminal Courts was greater by 54—being 376 against 322, and the number of offenders implicated therein was also greater by 167 being 640 against 473 of the preceding year. Out of the total number of offences, 40 were investigated by the Police and the remaining were directly taken up by the Magistrates. Out of 640 accused persons brought before the Courts, 278 were discharged, 143 were convicted, 179 were acquitted, 4 committed to the Court of Session and 36 remained pending trial at the close of the year.

29. The number of appeals with their results will be known from Appendix IX. There was one appeal to the District Magistrate and two to the Court of Session, all of which were disposed of before the close of the year.

Civil Justice.

30. There were three Civil Courts in the State this year as during the last year, viz. the Huzur High Gourt, the First Appellate Court presided over by the Karbhari and the First Class Sub-Judge's Court exercising original jurisdiction and presided over by Mr. L. K. Phansalkar, B.A. LL. B.

31. Appendix X will give the necessary information regarding the Civil Work done by the Court of the first instance. During the year under report there were 160 suits on the File, of which 139 were disposed of. The average duration of suits was 3 months and 18 days against 3 months and 11 days of the previous year. The ratio of suits to population was 1 : 349.

32. Appendix XI gives the number of applications for the execution of decrees. Out of 214 applications for the execution of decrees, 190 were disposed of during the year, leaving 24 in arrears.

33. The value of suits of immovable property, money and other transac. tions was much decreased—being Rs. 31,456-9-11 against Rs. 40,852-3-2 of the year before.

34. The work done by the Huzur Special and the First Appellate Courts will be known from Appendix XII. There was no Special Appeal to the Huzur High Court during the year. Of the 9 First Appeals including the balance of the preceding year, 7 were decided by the Karbhari and District Judge, leaving two in arrears. The average duration of First Appeals was 5 months and 12 days against 6 months and 21 days of the last year.

35. One application which was received by the Huzur High Court under section 115 of Act V of 1908 was disposed of, during the year.

Mamlatdar's Court.

36. There were 42 suits under Bombay Act II of 1906 during the year in question, 39 of which were disposed of. One application, which was received by the Huzur Court as a Revisional Court under the Act, was disposed of, before the close of the year.

Extradition.

37. During the year of report 6 persons from the British Districts were surrendered to the State for trial, while no person was surrendered by the State to the British Government. All the 6 persons, obtained by extradition during the year, were convicted, whereas the 5 persons who were under trial at the close of the year before, were acquitted.

Prisons.

38. Close to the Mamlatdar's Court is situated the State Jail, the rooms wherein are provided with strong iron bars and are freely ventilated and cleanly kept.

39. Under-trial prisoners are kept in the two lock-ups in the Mamlatdar's Court. There was only one under-trial prisoner at the end of the year. The average period of detention was 4 hours against 5 of the preceding year.

40. Particulars about the total number of prisoners and the expenditure incurred thereon will be known from Appendix XIII. The annual total cost per head including the establishment charges was Rs. 97-8-4 and the earning per head was Rs. 26-9-5.

41. The prisoners are treated according to most of the British Jail Rules. The State Medical Officer is the Jail Superintendent and attends to the

health of the prisoners. Their health and conduct were good. There was one casualty amongst the prisoners owing to plague during the year.

42. The visitors, as usual, visited the Jail every month and found the arrangements satisfactory.

Registration.

43. Information regarding the work performed by the Registration Department will be seen from Appendices XIV and XV. The number of documents registered during the year was 2,397 against 2,439 of the year before. The receipts and expenditure of the Registration Department amounted respectively to Rs. 1,923-3-6 and Rs. 794-12-8, the corresponding figures for the preceding year being Rs. 2,008-11-6 and Rs. 748-1-9 respectively.

Municipal Administration.

44. There is one Municipality in the State at Phaltan, and the State Karbhari is its ex-officio President. The General Body, which consists of 16 Commissioners, half of which are elected and half nominated, met 11 times, and the Managing Committee, which consists of 7 members, held 36 sittings for the discharge of Municipal business.

45. Particulars concerning the receipts and expenditure of the Phaltan Municipality during the year in question will be had from Appendix XVI. The receipts and the expenditure for the year of report were Rs. 8,948-3-8 and Rs. 9,941-4-8 against Rs. 10,521-8-6 and Rs. 9,444-11-4 respectively of the preceding year, leaving a closing balance of Rs. 2,494-2-1.

46. Cleaning and lighting of streets have been properly attended to. Notwithstanding the visitation of plague which lasted for about 5 months from January to May last in a mild form, the general sanitation of the town has been maintained in a high state of efficiency as before. Here is the remark passed by the Hon'ble the Commissioner, C. D., regarding the working of the Municipality :—

Dated 14th November, 1910.

"It is a pleasure to visit this nice clean town. The Municipality is evidently most efficient."

(Sd.) G. S. CURTIS, I. C. S.,
Ag. Commissioner, C. D.

CHAPTER IV.

(a) Weather and Crops.

47. Appendix XVII compares figures of rainfall in the State during the year with those of the previous year. It was feared before the beginning of the year that the year would be a very bad one, owing to the appearance of Halley's Comet, but thank God, all the fears turned out to be quite unfounded ; and the rainfall during the year was 26 inches and 61 cents and thus was more

than double that of the preceding year. The early rains made a good beginning but did not continue well, and so the kharif crops yielded a harvest ranging from 8 to 12 annas. The late rains were indeed copious, well distributed and timely. Had it not, however, been for the excessive cold whereby the crops somewhat suffered during the month of February when water was in some places turned into ice, there would have been an excellent harvest. But for the above drawback the Rabi Crops yielded an average crop ranging from 10 annas to 1 rupee. On account of the copious rainfall in August and September, the water-supply to most of the garden-lands in the State appreciably improved.

(b) Prices of food-grains.

48. Appendix XVIII compares the prices of food-grains in the year under review with those of the year before.

Wages and Labour.

49. The daily rates of skilled and unskilled labourers ranged respectively from 10 to 16 annas and 3 to 6 annas.

(c) Forest.

50. The area of the State Forest during the year was 13741 acres and 17 gunthas assessed at Rs. 1188-10-6. Plantation of Niem, Jam and Babul trees was made in some Forest lands. The Public Gardens at Phaltan which are places of recreation and resorted to by persons in the evening were kept in a good condition as before. The total receipts and expenditure on Forest amounted respectively to Rs. 1604-6-1 and Rs. 674-13-9, the corresponding figures for the last year being Rs. 1299-4-0 and Rs. 457-10-3 respectively.

(d) Trades and Manufactures.

51. Agriculture being the main source of livelihood of the people in the State, neither extensive trade nor manufacture is carried on here. The State, however, has 171 hand-looms against 161 in the preceding year and is noted for the manufacture of silk and cotton Dhoteers and Saries as well as country blankets. There were 30 oil presses at work during the year as before for extracting Kardi oil.

(e) Public Works.

52. The total expenditure on Public Works during the year was greater being Rs. 24,251-15-0 against Rs. 19,760-5-7 of the previous year. Appendix XIX shows the new works and repairs made out of the State and Local Funds.

(f) Post Offices.

53. There are three British Post Offices in the State, viz. at Phaltan, Taradgaon and Wathar. The system of taking the Post from Lonand to Phaltan by a Mail-Tonga has been introduced during the year instead of by runners, and this arrangement is found to be more convenient. There is no Telegraphic convenience here.

(g) Mint.

54. There is no Mint in the State.

(h) General condition of the people.

55. The year under report was a good one yielding an average crop. The last monsoon compared very favourably with that of the year before, and hence there was plenty of food and fodder. The prices of food-grains as well as the wages of labour remained almost stationary. There was an increase in agricultural stock as will be evident from Appendix XX. There was a rise in birth-rate as well as in death-rate. The general health of the people was on the whole good, notwithstanding the out-break of plague at Phaltan and Aradgaon There was no demand for employment, as people were engaged in agricultural work. From the above it will be clear that there was a change for the better in the material condition of the people during the year in question.

CHAPTER V.

Revenue and Finance.

56. Information regarding the receipts and disbursements of the State during the year under review as compared with those of the preceding year will be known from Appendix XXII.

57. The gross total revenue of the State during the year was Rs. 2,47,238-0-6 against Rs. 1,83,018-4-11 for the year before. The increase was due to the season being a favourable one. The increase in receipts under land-revenue, Local Funds, Tagai and Deposits was due to the same cause. The increase under the other heads and the decrease under all the heads of receipts being slight, need no remarks.

58. The increase in expenditure under State Public Works was owing to more money being spent on building Dharmashalas; that under miscellaneous was caused by donations &c. and that under Deposits was due to repayment. The decrease under Devasthan and Dharmadaya can be explained by the non-payment of arrears in the year and that under Tagai was due to less demand by the cultivators. The increase as well as the decrease under the remaining heads was slight and calls for no explanation.

59. The State is not in debt.

CHAPTER VI.

Vital Statistics.

60. The number of births and deaths and the ratio per mille of population during the year as compared with that of the previous year will appear

from Appendix XXIV. The increase in the birth-rate was owing to good season and accurate registration, while that in the death-rate was due to the outbreak of plague at Phaltan and one village in the State.

Cholera and Plague.

61. Though Cholera was averted during the year in the State on account of the necessary preventive measures, plague broke out in a mild form at Phaltan and at a village named Aradgaon in the State. Most of the people availed themselves of the simplest and the most efficacious measure, *viz.* evacuation ; so much so that only about one-tenth of the population remained in the town of Phaltan. As usual, segregation huts were erected for the poor, and all possible help to mitigate human suffering was rendered to the needy by the State. With regard to a few villages in the State which were threatened with plague, it so happened that as soon as rats began to die in numbers and the rat-poison was about to become a human one, all the people therein evacuated in a body as it was also the time of reaping the Rabi Harvest, so that no scope was left for the poison to disseminate. In all there were 215 attacks and 169 deaths from plague.

Medical Relief.

62. A charitable Dispensary is maintained at Phaltan under the efficient management of Dr. A. V. Bhide, L. M. & S., the Chief Medical Officer of the State.

63. Appendix XXIII will indicate the amount of Medical Relief afforded to the sick as well as the expenditure incurred in consequence. The average daily attendance at the dispensary was 111·4, and when compared with that of last year, viz. 167·5, it indicates a considerable decrease. This was due to the fact that owing to plague which prevailed in Phaltan for about 5 months, the population of the town dwindled down to as much as 700, and hence very few people could then avail themselves of the Medical help.

64. The principal diseases which were treated during the year under report were as under :—

Some of the Eruptive fevers such as Measles and Chiken pox, Specific fevers such as Plague, Remittent, Typhoid and Rheumatic fevers and Whooping Cough, Malaria in its different varities (Quatidian, Tertian, Quarten, Double Quatidian, Semitertian, Malignant, &c.,) Diabetes, Guinea-worm, Venereal complaints, Opium-poisoning ; Eye, Ear and Skin Diseases and several Respiratory, Alimentary, Urinary and Nervous affections. In all 182 operations were performed, of which 9 were Major operations and 173 were Minor ones. The Major operations included Removal of Bony growths, setting of Fractures and Reduction of Dislocations, Operation for imperforate Anus &c. while Minor operations were chiefly confined to Extraction of Teeth, Opening Abscesses, Lancing gums, Enlarging Sinuses, Passing Catheters and Removal of foreign bodies from Eye, Ear and Nose, &c. Out of the total number of patients (4844) who availed themselves of the Medical aid at the Dispensary, 300 belonged to

the adjoining British Districts. 4 Post Mortem examinations against 5 of the last year were held during the year under report.

65. The temperature recorded at Phaltan during the year of report ranged between 54° and 104°.

66. The distinguished visitor who visited the dispensary during the year under report was the Hon'ble Mr. G. S. Curtis, I.C.S., Commissioner, C. D. and the following is the remark left by his Honour: —

"Visited. The institution is an excellent one and in the highest degree creditable to the administration of the Satte."

Sanitation and Vaccination.

67. The Sanitation work of the Phaltan Municipality is supervised by the Superintendent of Sanitation and Vaccination and the Health Officer, whil the general sanitation of the State villages is looked after by the village Panchayats under the direct supervision and guidance of the same two officers.

68. The subjoined table will give information concerning vaccination i the state:—

Year.	Number of persons vaccinated.	Results.		Unknown.	Remarks.
		Successful.	Unsuccessful.		
1909-10	1767	1675	12	80	2 persons were revaccinated.
1910-11	1433	1390	...	43	Nil.

69. The above statement will show that the number of vaccinated persons has become much less this year. This is explained by the fact that during the prevalence of plague in Phaltan &c. the vaccination work could not be undertaken. Out of the total number (1433) of vaccinated persons, 437 were vaccinated with calf-lymph.

CHAPTER VII.

Education.

70. The total number of schools in the State was the same, viz. 36, as last year; and the number of scholars attending them during the year was 1676 against 1787 of the year before, showing a decrease of 181 scholars. The decrease was

due to the prevalence of plague at Phaltan. Of the total number of Schools there is one High School where instruction is imparted upto the University Entrance Examination, one Vedic School, one Girl School, one Low-caste School and the rest purely vernacular schools for both boys and girls.

71. Out of the 9 students sent up for the Matriculation Examination of the Bombay University from the local High School last year one came out successful. One out of the two students who appeared for the 3rd Grade Art Examination came out successful, whereas two out of three and four out of fourteen sent up for the 2nd and 1st Grade Art Examinations respectively passed during the year under review.

72. The Karbhari and the Deputy Educational Inspector inspected the schools in the State as usual. They were also inspected by the Assistant Deputy Educational Inspector, Satara.

73. During the year the total expenditure on Education amounted to Rs. 11,049-14-2 against Rs. 10,511-4-1 of the last year.

CHAPTER VIII.

Miscellaneous.

Printing Press.

74. There is one State Litho-printing Press at Phaltan, wherein most of the forms of the several Departments of the State are printed.

Libraries.

75. There is a good Library at Phaltan, called the Victoria Diamond Jubilee Library. The nice and spacious library building is located in the centre of the town and is well supplied with a large number of books and news-papers. It is supported partly by private subscriptions and partly by State and Municipal aid.

76. The Library here has been registered during the year by G. R. No. 4108, General Department, dated 26th August 1910, and is supplied with copies f Reports and Official Publications by the Government of Bombay.

77. The Library was visited by the Hon'ble the Commissioner, C. D., during the year, and the remark made by His Honour is as under :—

Dated 14th November, 1910.

" Visited. A nice building and exceedingly well-kept."

(Sd.) G. S. CURTIS

Ag. Commissioner, C. D.

The State Records.

78. The State Records are carefully preserved in a nice building in the vicinity of the Palace.

Fairs.

79. There were four principal fairs at Phaltan as usual in the months of Shravan, Margashirsha, Magha and Chaitra during the year. Minor fairs were also held at Javali, Kambleshwar, Kalaj and Salpa during the year under review.

Census.

80. Census was taken during the year on the 10th March as in the British territory. The population of the State numbered 55960 souls (27929 males and 28031 females) as compared with 45739 souls (22,791 males and 22948 females) according to the census of 1901. It is satisfactory to note that the population of the State has increased during the last decade by 10221 persons or by 22 per cent.

Concluding Remarks.

81. The above Annual Administration Report of the State will speak for itself. The year of report being a normal one, the general condition of the people was on the whole satisfactory. Record expenditure and sound financial position with a still handsome balance of Rs. 79689-1-10 were the characteristics of the year. Order and peace were efficiently preserved. Criminal and Civil work was, as usual, prompt and efficient. Public health was maintained in a good state notwithstanding the out-break of plagé here at Phaltan and one village in the State. The discipline and management of the Jail were sound. The working of the local Municipality was creditable. Education and Public Works received their adequate share of attention. Medical aid was given *gratis* to the needy. In fact every possible endeavour was made to ensure the welfare of my people.

82. I feel very glad to note here that my Karbhari, Mr. Vasudev Pandurang Chirputkar, B.A. LL. B., discharged his duties with great zeal and promptness and to my entire satisfaction and rendered me valuable assistance in conducting the State Administration.

83. I am very happy to record here that I am highly obliged and thankful to Mr. A. R. Bonus I. C. S., your predecessor in office, for the friendly and valuable advice he gave me in administrative matters. I am also highly thankful to you for the special regard you have been kind enough to show me so far and I earnestly hope that you will be pleased to continue favouring me with your kind and valuable advice.

84. I am deeply indebted to His Excellency the Governor of Bombay in Council, for congratulating me upon the Fiftieth Anniversary of my accession to the Gadi of this State and for wishing me many more years of prosperity. (Vide G. R. No., 733 Political Department, dated 2nd February 1911.)

85. In conclusion, I beg to request you to kindly convey my sincere thanks to the Hon'ble the Commissioner, C. D. and Government for their favourable remarks on last year's Administration Report.

I have the honour to be,

Sir,

Your most obedient servant

(Sd.) M. J. NAIK NIMBALKAR,

Chief of Phaltan.

THE
ANNUAL ADMINISTRATION REPORT
OF THE
PHALTAN STATE
FOR THE
FASLI YEAR 1321 (1911-1912).

FROM,

MUDHOJIRAO JANRAO NAIK NIMBALKAR, C. S. I.,

Chief of Phaltan.

To,

L. J. MOUNTFORD, ESQUIRE, I. C. S.,

Political Agent, SATARA.

Phaltan, 4th July, 1912.

SIR,

I have the honour to submit the Annual Administration Report of the Phaltan State for the Fasli year 1321 ending 6th June, 1912.

2. The usual Appendices accompany.

CHAPTER I.

General and Political.

3. The area of the State is 397 square miles. The population, according to the Census of 1911, is 55,996 including the persons on the Railway Stations within the State limits. The gross revenue (based on the average of past five years) is Rs. 2,23,663-4-5 including Alienations, Local Funds and all other items. The State pays an annual tribute of Rs. 9,600 to the British Government. The relations of the State with the British Government continue to be most cordial.

4. My full name is Mudhojirao Janrao Naik Nimbalkar, Deshmukh and Jahagirdar, Chief of Phaltan. My age is 74, and I am a Kshatriya by caste. My son Vyankatrao being dead, I adopted Malojirao alias Nanasahib on the 28th December, 1899. He is 16 years old and is learning English Standard VI here under

the special tuition of a competent tutor Mr. G. R. BHIDE B. A. I have intermarried with the families of Gujar, Jadhav, Shirke, Bhonsle, Ghadage and Mahadik of Satara, Malegaon Bk., Dervan, Mungi, Malavadi and Tarale respectively.

5. I am very glad to observe that the year under review was the most unique in the annals of the Indian Empire. The Coronation of Their Most Excellent Imperial Majesties King George V and His Noble Consort Queen Mary, took place on the 22nd June, 1911 in England and it was extremely good on the part of Their Most Excellent Imperial Majesties to resolve to take the trouble of coming down to this country to announce Their Coronation in person by holding a grand Imperial Darbar at Delhi. I had the honour of being invited to be present to accord a hearty and loyal welcome when Their Most Gracious Imperial Majesties were to land at Bombay on the 1st December, 1911. It was my heartfelt desire to be present on this most auspicious and joyous occasion, but I am sorry that my extreme debility, consequent upon my illness at that time, prevented me from doing so. I, however, conveyed through you my most loyal reception and deep devotion to Their Imperial Majesties and my sincere wish for Their Majesties' long and glorious life replete with joy and happiness.

6. I subscribed Rs. 400 to the Royal Visit Fund at Bombay and also Rs. 400 to the Satara Coronation Committee.

7. Twelfth December last being the most auspicious and unique Coronation-day of Their Most Gracious Imperial Majesties in India, it was celebrated in this State thus:—

The morning opened with a salute of hundred and one guns in Phaltan. The whole town was gaily decorated with flags and buntings and great enthusiasm prevailed. A grand procession headed by a richly caparisoned elephant carrying a garlanded portrait of Their Most Excellent Imperial Majesties in front in a fully decorated Ambari with the Prince in the rear and followed by all the State Manakaris, officials, the merchants and townsmen, the Garrison, the Sowars and a long line of carriages started from the Palace and passed through the whole lavishly decorated town amidst huge crowds of spectators who were lustily cheering and paying their loyal and respectful homage to our beloved Sovereign. While the procession passed through the town, the State Band &c. played the national anthem and other melodious native songs, and the whole town presented a gay appearance. On the return of the procession to the Palace, a majestic Darbar was held in the spacious Shri Rama's Temple where the portrait of Their Imperial Majesties was seated on a raised dais so that it could be seen by all. I, in spite of my illness, attended the Darbar, the Prince, the Manakaris, the State officials and the townsmen being all present. At twelve noon, the Royal Proclamation of the Coronation of Their Imperial Majesties the King Emperor and Queen Empress was read, all standing during the time. A salute of hundred and one guns was fired at the time followed by the playing of the State Band. To commemorate the Coronation, I, with great joy, announced the following gifts:—

(1) The remission of arrears of land revenue amounting to more than half a lakh of rupees.

(2) The grant of a Scholarship of Rs. 20 per mensem named "The Emperor George Scholarship" and tenable for one year to the first of the students who pass the Matriculation Examination from the local High School.

(3) The grant of pardon to a few Vatandars of their past misconduct and their reinstatement to their Vatans.

(4) The grant of increase of some years in the period of the pensionable service of permanent State servants and money rewards to State officers.

(5) Release of three prisoners.

Afterwards the poor were given rich food and clothing. Medals, prizes and sweets were distributed to about a thousand School children. Athletic sports were then held and prizes were given to the successful competitors. In the evening a grand display of fireworks took place near the TukaiTank, and the town was illuminated on an extensive and unprecedented scale. At night prayers in the modern style by way of Hari Kirtan were offered in Shri Rama's Temple for Their Majesties' long life, happiness and prosperity. General prayers were offered in other Temples and Mosques. Cheers for Their Imperial Majesties and the distribution of Attar, pan and flowers terminated the proceedings of the joyous red letter day. General holidays were observed on the 2nd and from the 7th to 12th December, 1911. Celebrations on similar lines were also held in all the villages of the State.

8. I requested you on 10th January, 1912 to convey my hearty and loyal wishes for Their Imperial Majesties' bon-voyage and long life with ever increasing prosperity. It gives me the utmost pleasure to see that the unique visit of Their Most Excellent Imperial Majesties to India proved highly successful and beneficial.

9. On the occasion of the Coronation Darbar His Most Excellent Imperial Majesty was graciously pleased to confer upon me the Companionship of the Most Exalted Order of the Star of India, and I am highly indebted to His Imperial Majesty and Government for the same.

10. To perform the ceremony of investiture the Hon'ble Mr. G.S. CURTIS, C.S.I., I.C.S., Commissioner, C.D., came here on 24th March, 1912. A Darbar was held at 12 noon in the Palace in which His Honour presented me the decoration which His Most Gracious Imperial Majesty was pleased to confer and spoke as follows :—

"Meherban Mudhojirao Naik Nimbalkar,

It is with very great pleasure that I come here to-day as the humble representative of His Majesty the King Emperor to place in your charge the insignia of the C. S. I., which His Majesty was pleased to confer upon you on the occasion of the last Delhi Darbar. It was, I am sure, a matter of regret to His Majesty as it was unquestionably to all of us that you the oldest reigning Chief in India were not able to receive the honour from the King Himself. But that was unfortunately impossible. Your reign has been distinguished by a devoted regard for your people and a constant endeavour to promote their good. You have always been distinguished for

loyalty to your Sovereign. Your private life has been the model of what a gentleman should be. I trust that you will be speedily restored to health and live long to wear the decoration which His Majesty has conferred."

By my desire my son heartily thanked the Commissioner as the representative of the British Government for the honour conferred upon me by His Most Gracious Majesty the King-Emperor.

11. The distinguished native gentlemen who visited Phaltan during the year were Mr. V. N. Rahurkar, B.A., LL.B., F.C. Sub-judge, Satara, Rao Bahadur R. P. Godbole, B.A., Ag. Educational Inspector, C.D., the Hon'ble Raja Shambhusing Jadhavrao of Malegaon Bk., Sir Bhalachandra Krishna Kt., L.M. of Bombay, Mr. N. B. Divatia B.A., C.S., Asst. Collector, Satara and Mr. B.H. Godbole, B.A., Personal Assistant to the Collector, Satara. While the notable European visitors were the Hon'ble Mr. G. S. CURTIS, C.S.I., I.C.S., Commissioner, C.D. and yourself.

12. During the year, my health, I am sorry to say, was not satisfactory. I was occasionally seriously ill by acute attacks of Rheumatic pain, but I am glad to say that I am slightly better now under good medical treatment.

13. The work of Jamabandi and village inspection was done this year by the State Karbhari.

14. The Birth-day of His Most Excellent Imperial Majesty King George V, was celebrated on the 3rd June. All the Schools and Offices were closed. Prayers were offered to God in Shri Rama's Temple for the long life and prosperity of the King-Emperor.

15. There is no Residency official in this State. The only High State official is Mr. V. P. Chirputkar B.A., LL.B., the State Karbhari. Hence Appendix I is omitted.

16. On account of the unsatisfactory state of my health, I requested you to send, till I feel better, a Special Adviser to me to work in conjunction with my State Karbhari so as to lighten my labours and enable me to recuperate my health, and I am very glad to have Mr. M. N. MEHTA B.A., as Special Adviser as per Government Resolution No. 4330 of 27th May, 1912. I strongly hope that this arrangement will prove highly successful in bringing about the desired result.

CHAPTER II.

Administration of Land.

17. The work of the Revision Survey Settlement of the State was done in 1894, and the rates of assessment then fixed have been guaranteed for 30 years and are realised in two instalments (February and March). The rayats pay the new rates with ease except in bad years.

18. No waste land is available here for cultivation.

19. During the year in question, there were no Alienations nor Boundary Settlements. Takavi advances of Rs. 2,475-0-0 were given to the ravats for digging wells and constructing Tâls.

20. The rain-fall during the year was timely and sufficient in a few villages, while in others it was insufficient and inopportune; so out of the 73 villages in the State, 16 were given a suspension of six annas in the rupee, 26 a suspension of four annas and the rest no suspension at all. Water-rate, levied on lands irrigated by pâts, was remitted, where necessary, during the year. So Rs. 1,03,254-8-5, including some arrears, were collected during the year. Out of the total arrears of Land Revenue Rs. 50,599-3-5 were remitted in honour of the auspicious occasion of the Imperial Coronation Darbar at Delhi and Rs. 60,725-2-10 remain to be recovered.

CHAPTER III.

Protection.

Legislation.

21. The Acts and Regulations in force in the State are given in Appendix II.

Military Force.

22. There is no Military force in the State, and so Appendix III is blank.

Police.

23. Appendix IV shows the details about the strength, discipline, education and cost of the Police force in the State. The number of the regular Police is 49, 7 of whom are armed with smooth-bore rifles. The Garrison are 36 in number (out of whom 28 are armed with smooth-bore rifles and two with hunting ones). They guard the Palace, the Treasury and the Jail. The Sowars or the mounted Police, 12 in number, are armed with swords and spears and assist the regular Police in times of emergency. Besides the above, there is an irregular Police force of 33, called Shibandi, who discharge such miscellaneous duties as cannot be performed by the regular Police.

24. There was no case of murder during the year in question. There was, however, one dacoity committed on the Phaltan-Baramati Road in May last, while two Khatiks were returning from the Baramati Bazar. The dacoits are suspected to belong to the British territory and have not yet been traced. The number of petty cases of theft and other ordinary crimes is almost the same, being 404 against 435 of the last year.

25. One Sowar was dismissed, while two Constables were departmentally fined during the year in question. Five Constables were promoted.

26. Out of the whole Police force, 94 against 83 can read and write.

27. The total cost, incurred on account of the Police force, was Rs. 13,668-7-2 against Rs. 14,701-1-2 of the year before.

28. The ratio of the Police to the area and that to the population was 1 : 3 and 1 : 430 respectively.

29. Appendices V, VI and VII will show the results of the work of the Police.

30. The village Police consists of Police Patels and watchmen who are all hereditary Vatandars. They perform the duty of preventing crime, cattle impounding and serve partly on service tenure and partly on remuneration in cash.

31. During the year under report, property worth about Rs. 2,380 against Rs. 1,955, was destroyed by accidental fires. The number of accidental deaths was 20 against 16 last year.

32. The Police who worked efficiently on the very spot during the plague days at Phaltan in the year before last, were given money rewards by the State during the year.

Criminal Justice.

33. Appendices VII and VIII give the various Criminal Courts at work in the State during the year. The Huzur Criminal Court, presided over by myself, is the chief Criminal Court and ordinarily exercises High Court's Criminal powers. The Karbhari ordinarily exercises the powers of the District Magistrate and is occasionally invested with the powers of the Court of Session. Besides these, there were two Courts of Subordinate Magistrates as last year.

34. The total number of offences dealt with by the Original Criminal Courts was 365 as against 376 of the year before. Of these, 358 were disposed of, leaving 7 at the end of the year. The total number of persons dealt with was 625 as against 640. Out of these, 147 were convicted, 194 were discharged, 276 were acquitted, 2 died, 3 were transferred and 3 remained pending trial at the close of the year. To check the number of frivolous prosecutions, Section 250 of the Criminal Procedure Code was made use of in some cases. The large number of acquittals is due to the accused being let off on compromise. The decrease in crime being slight, needs no explanation.

35. Appendix IX shows the work done by the Appellate Courts. There were 7 Appeals to the District Magistrate and one to the Court of Session. Out of them, the sentence in one was modified, while the decisions of the lower Courts in seven Appeals were confirmed before the end of the year in question.

Civil Justice.

36. There is one Huzur High Court, one First Appellate Court and

one First Class Sub-judge's Court exercising original jurisdiction. The First Appellate Court is presided over by the State Karbhari, while the First Class Sub-judge's Court is presided over by Mr. L. K. PHANSALKAR, B. A., LL.B.

37. Appendix X gives the requisite information as regards the Civil work done by the Court of First Instance. There were 164 suits on the file during the year, out of which 158 were disposed of, leaving only 6 in arrears. The average duration of suits was slightly greater than that of the last year, being 4 months and 23 days against 3 months and 18 days last year. The ratio of suits to population was 1 : 349.

38. Appendix XI will show the number of applications for the execution of decrees. The number of decrees executed during the year was 290. Out of them 268 were disposed of, leaving 22 in arrears.

39. The value of suits of immoveable property, money and other transactions was much decreased, being Rs. 21,499-14-10 against Rs. 31,456-9-11 of the last year.

40. Appendix XII shows the disposal of the work by the Civil Appellate Courts during the year. One Second Appeal was presented to the Huzur High Court and was disposed of during the year. All the 9 first Appeals including the balance of the last year were disposed of by the First Appellate Court. The average duration of the former was 5 months and 16 days and that of the latter was 11 months and 11 days.

41. One application under Section 115 of Act V of 1908 was presented to the Huzur High Court and was disposed of during the year under review.

Mamlatdar's Court.

42. During the year there were 51 suits including the balance of last year under Act II of 1906 for disposal. All of them were disposed of. Two applications were received during the year by the Huzur High Court as a Revisional Court under the Act, none of which remained in arrears.

Extradition.

43. Neither any person was surrendered to the British Government nor was any person from the British Districts handed over to the State for trial during the year in question.

Prisons.

44. The State Jail is situated near the Mamlatdar's Court and in front of the Palace. Its rooms are provided with strong iron bars and admit of ample light and free ventilation.

45. There are two lock-ups in the Mamlatdar's Court for prisoners under trial. There was only one under-trial prisoner at the close of the year. The average period of detention was 13 hours, against 4 hours of the year before.

46. Appendix XIII gives information concerning the total number of prisoners and the cost incurred on their account. The annual total cost per

head including the establishment expenses was Rs. 138-2-9 and the earning per head was Rs. 32-11-9.

47. The prisoners are treated according to most of the British Jail Rules. The State Medical Officer is the Jail Superintendent and looks after the sanitary condition of the prisoners. Their health and conduct were satisfactory. There was no casuality amongst them during the year.

48. The visitors paid visits to the Jail every month, as usual, and found every thing in good order.

Registration.

49. Appendices XIV and XV give information regarding the work done by the Registration Department. The number of documents registered during the year was much greater, being 3,079 against 2,397 of the last year. The receipts and expenditure of the Registration Department were respectively Rs. 2,788-0-6 and Rs. 874-0-1 against Rs. 1,923-3-6 and Rs. 794-12-8 of the last year.

Municipal Administration.

50. There is only one Municipality in the State at Phaltan. The State Karbhari is its President *ex-officio*. The General Body consists of 16 members. Half of them are elected and half nominated. The General Body met 11 times, while the managing Committee, which consists of 7 members, held 34 sittings for disposing of Municipal work.

51. Appendix XVI shows that the receipts and expenditure of the Phaltan Municipality were Rs. 12,132-9-2 and Rs. 10,653-12-9 against Rs. 8,948-3-8 and Rs. 9,941-4-8 respectively in the previous year leaving a closing balance of Rs. 3,972-14-6. This shows that the financial state of the Municipality is sound.

52. Ample provision has been made for the cleaning, watering and lighting of streets. By reason of the improved state of sanitation, the town was quite free from Plague during the year. The general sanitation and water-supply of the town have been kept in a high state of efficiency as before. Here are some of the remarks left by distinguished visitors :—

29th January 1912.

" I visited this town, being on a professional visit to the Chief. I was much struck by the cleanliness and tidiness of the town. I have seldom seen in any part of India a town so well kept. The water-supply is excellent and continuous. The roads are very well kept. The Municipality which has the right to elect half the number of members, is doing very good work. The Chairman, Vice-Chairman and Members deserve praise for their work."

(Sd.) BHALCHANDRA KRISHNA,
Medical Practitioner, Bombay.

11th February 1912.

" I visited Phaltan to-day and was pleased with its exceedingly clean appearance. The Municipality must have been taking a lot of trouble over its work. The water-supply is excellent and plentiful even now in a year of draught."

(Sd.) N. B. DIVATIA,
Asst, Collector, Satara.

6th March 1912.

"The town is well-managed. The roads good and clean, water-supply ample and institutions substantial"

(Sd.) L. J. MOUNTFORD,
Political Agent.

8th April 1912.

"The town is kept clean and water-supply is ample."

(Sd.) B. H. GODBOLE,
Personal Assistant to the Collector, Satara.

CHAPTER IV.

(a) Weather and Crops.

53. Appendix XVII gives figures of rainfall in the State during the year in question, as compared with those of the previous year. It will be seen therefrom that the amount of the year's rainfall was considerably less, being 16 inches 37 cents against 26 inches 61 cents in the year before. The early rains made a good beginning, but did not continue so well upto the end. The late rains were insufficient and not well distributed. A few villages had, however, more rain than others. The yield of the crops ranged, therefore, between 3 to 12 annas in the rupee. On the whole, the state of the crops was not as satisfactory as it should have been.

(b) Prices of food-grains.

54. The prices of staple food-grains during the year in question will appear from Appendix XVIII, as contrasted with those of the previous year. It will be seen therefrom that the prices of food-grains were higher than those of the last year.

(c) Wages and Labour.

55. The daily wages of skilled and unskilled labourers continued as high as they were during the year before. The wages for skilled labour ranged from 10 to 16 as. and those for unskilled labour from 4 to 6 as. respectively.

(d) Forest.

56. The total area of the State Forest during the year was 13,741 acres and 17 gunthas assessed at Rs. 1,188-10-6. New plantation of Niem and other trees is as usual in progress. The state of the public gardens at Phaltan was good as before. The receipts and expenditure of the Forest Department amounted respectively to Rs. 1,575-8-0 and Rs. 475-3-5 against Rs. 1,604-6-1 and Rs. 674-13-9 in the year before.

(e) Trades and manufactures.

57. There is no flourishing trade nor any manufacture in the State as the people here are mostly confined to agriculture. Rice, cocoanuts, sugar, salt and other articles of daily use are imported here, whereas Jowari, Bajri, Wheat, Kardi-oil, &c. are the principal articles of export. The principal manufactures are silk and cotton Dhoteers, Sarees and country blankets. There were 201 hand-looms and 36 oil presses at work against 171 and 30 respectively in the preceding year.

(f) Public Works.

58. Appendix XIX gives the new works and repairs made out of the State and Local Funds. The expenditure on Public Works during the year was greater, being Rs. 43,070-13-1 against Rs. 24,251-15-0 last year.

(g) Post Offices.

59. There are three Post Offices in the State, *viz.* at Phaltan, Taradgaon and Wathar. There being no Telegraphic Communication here, I have requested you to open a Telegraph Office here to meet the convenience of the State and the Public.

(h) Mint.

60. No mint exists in the State.

(i) General condition of the people.

61. As the rainfall during the year was insufficient in quantity and distribution, the crops suffered badly in many villages, and so the condition of the people who are mostly farmers was not satisfactory. The prices of food-grains rose. The wages of labour continued high as before. Fodder grew very dear. Agricultural stock has markedly decreased as will be seen from Appendix XX. Birth-rate, however, has slightly risen, and death-rate a little decreased. There was plague in four villages of the State. With all this, however, there was no demand for employment, as people could get ample work here as well as in the adjoining Bhimthadi Taluka. Hence it will be seen that the material condition of the people had little scope for improvement during the year.

CHAPTER V.

Revenue and Finance.

62. Appendix XXII compares the total receipts and expenditure of the State for the year under report with those of the year before.

63. The opening balance was Rs. 79,689-1-10 as against Rs. 59,720-3-7 last year and the closing balance is Rs. 74,463-5-4. The gross total revenue of the State for the year under review was Rs. 2,25,629-6-1 as against Rs. 2,47,238-0-6 last year. The decrease was due to unfavourable season. The increase in receipts under Sayar Revenue was due to the increase in Ganja compensation and the recovery of Mohotarpha tax arrears. The increase under the head Stamps was due to larger sale of stamps, and that under the head Tagai was owing to a large amount of Tagai arrears being recovered during the year. The decrease in receipts under Land Revenue was due to want of good season and that under deposits was owing to few deposits being received. The increase as well as the decrease under the other heads of receipts were slight and call for no explanation.

64. The increase in expenditure under Devasthân and Dharmadaya was due to the payment of arrears, that under Local Fund and State Public Works was due to more money being spent on improvement of roads and Public buildings and that under Tagai was owing to more demand by the cultivators

for agricultural improvements. The decrease in expenditure under Police was due to no new dress being made during the year as last year, and that under Deposits owed to the demand being less. The increase and decrease in expenditure under the remaining heads being small, require no explanation.

65. The State is not in debt.

CHAPTER VI.

Vital Statistics.

66. Appendix XXIV shows the number of Births and Deaths during the year as contrasted with that of the preceding year. The increase in birth-rate was due to accurate registration, while the decrease in death-rate was owing to the non-prevalence of Cholera in the State and Plague at Phaltan.

Cholera and Plague.

67. Though Cholera was averted in the State by reason of the necessary preventive measures during the year, Plague appeared at four villages in the State, viz:—Vidni, Pimprad, Takalwade and Salpa. There were in all 254 attacks and 205 deaths from the same.

Medical Relief.

68. There is one Charitable Dispensary at Phaltan. It is under the able management of Dr. A. V. Bhide, L. M. & S. the Chief Medical Officer of the State.

69. It will appear from Appendix XXIII that the number of In-patients and Out-patients, treated during the year of report, was 14 and 7026 respectively, and that the average daily attendance was 174·7. When these figures are compared with those of the last year (In-patients 14 and Out-patients 4,830 and average daily attendance 111·4) they show an enormous increase. This increase can be accounted for by the fact that there was no out-break of Plague in Phaltan during the year in question, and that, therefore, people could avail themselves of the free medical aid left open to them.

70. The principal Diseases which came under observation and treatment were as follow :—

The different Eruptive Fevers such as Small-pox, Measles and Chicken-pox, Enteric and Remittent fevers, Acute Rheumatism, Malaria in its different forms ; Intestinal worms, Diabetes, Whooping Cough, Guinea worm, Syphilis, Gonorrhœa, and other veneral complaints, Opium-poisoning ; Eye, Ear, Nose and Skin diseases ; Valvular Diseases of the Heart, Pleurisy, Pneumonia, Bronch-Pneumonia and Phthisis, and certain Alimentary, Urinary and nervous affections. Of the above, Skin Diseases, Malaria and Intestinal worms appear to be highly common in this part. In all 211 operations were performed, 9 of which were major and the rest minor. Major operations included Amputations, setting up of Fractures, Removal of new growths &c., while minor operations included opening Abscesses, Enlarging Sinuses, Lancing Gums, Extracting teeth, passing Catheter and Removing foreign bodies from Eye, Ear, Nose and

Throat. Out of the total number of new patients (7040) treated at the Dispensary, 373 had come from the adjoining British Territory. The number of Post Mortem examinations held during the year was 7 against 4 of the last year.

71. During the year under report, 3 distinguished gentlemen inspected the Dispensary, viz :—Sir Bhalchandra Krishna Kt., L. M. of Bombay, Messrs. N. B. Divatia, First Assistant Collector, Satara and B. H. Godbole B. A., Personal Assistant to the Collector and Political Agent, Satara. The following are the remarks passed by them :—

29th January 1912.

" Visited the Dispensary to-day. The building is in a good condition and the sanitary condition of the place is very well attended to. The instruments are well kept and the stock of medicines which is sufficient for the needs of the town is well selected. The stock of the Dispensary is good. The daily average attendance is very large taking into consideration the population of the town. This bears eloquent testimony to the fact that the people appreciate the services and the merits of the medical officer (Dr. Bhide) in charge of the institution. He is very deservedly popular with the people and he is doing his best to spread the usefulness of the Dispensary to the people around. The Chief deserves the highest credit for so liberally providing medical aid to his subjects."

(Sd.) BHALCHANDRA KRISHNA,
Medical Practitioner, Bombay.

12th February 1912.

" Visited. Everything in excellent order. The Assistant Surgeon is looking after the institution with great success. Mrs. Divatia and I were delighted with all we saw. The attendance (150 daily average) is satisfactory ".

(Sd.) N. B. DIVATIA,

6th April 1912.

" Visited this morning. Everything here is quite upto the mark ; and it is a pleasure to see such an institution in a State. Dr. Bhide is a keen intelligent Medical Officer and much credit is due to him."

(Sd.) B. H. GODBOLE,
Personal Assistant to the Collector and Political Agent, Satara.

72. The temperature, registered at Phaltan during the year, varied between 58° and 105°.

Sanitation and Vaccination.

73. The Phaltan Municipality looks after the sanitation of the town of Phaltan under the supervision of the Superintendent of Sanitation and Vaccination and the Health Officer, while the general sanitation of the State villages is directly supervised by the same two officers through the village Panchayats.

74. The sub-joined statement will give the particulars regarding vaccination in the State.

Year.	Number of persons vaccinated.	Results.		Unknown.	Remarks.
		Successful.	Unsuccessful.		
1910—11	1433	1390	.....	43	
1911—12	1722	1639	12	70	1 person was re-vaccinated.

75. The above statement will show that the number of vaccinated persons was increased by 289 this year. This is mainly due to the fact that almost the whole State was free from Plague during the year under report. Out of the total number (1,722) of persons vaccinated, 740 were vaccinated with calf-lymph.

CHAPTER VII.

Education.

76. Appendix XXV gives the description of the Schools maintained by the State. There are 37 Schools as against 36 of the last year. The number of Scholars on the roll was 1,881 as against 1,676 of the last year. The number has increased on account of the opening of a new School and the non-prevalence of plague in almost the whole State. Of the total number of schools, one is a High School where education is imparted upto the University Entrance and the School Final Examinations, one Vedic School, one Girl School, one Night School and the rest purely Vernacular Schools for both boys and girls.

77. Out of the 6 students sent up for the Matriculation of the Bombay University from the Local High School last year, 4 came out successful. Two of the three students, sent up for the School Final Examination, passed. These results were satisfactory. Drawing is taught to the boys in the High School. Two Students appeared for the Third Grade Art Examination, wherein one came out successful, whereas 4 out of 8, sent up for the First Grade Art Examination passed during the year of report.

78. The Deputy and the Assistant Deputy Educational Inspectors of the Satara District inspected the Schools in the State as usual. The High School and the Schools at Phaltan were also inspected by Rao Bahadur R. P. Godbole, B. A., Ag. Educational Inspector, C. D. Their remarks are favourable. The schools were also inspected by the inspecting staff of the State and by the Karbhari, when on tour.

79. To commemorate the auspicious Coronation of Their Most Excellent Imperial Majesties King George V and Queen Mary in India at Delhi, a scholarship of Rs. 20 per mensem named "The Emperor George Scholarship" and tenable for one year was granted during the year and it was given to Mr. B. S. Deshpande who stood first among the local students who passed the Matriculation from the High School here. Mr. Deshpande has joined the Previous Class, Fergusson College, Poona.

80. The total expenditure on Education was Rs. 11,71[illegible]-0-3 as against Rs. 11,049-14-2 last year.

CHAPTER VIII.

Miscellaneous.

Printing Press.

81. There is a State Litho-printing Press at Phaltan. It is used for printing official forms and other work required by the several Departments of the State.

Libraries.

82. There is a good Library at Phaltan named the Victoria Diamond Jubilee Library. It is located in a nice building in the centre of the town and is well supplied with a large number of books and news-papers. It is maintained partly by private subscription and partly by State and Municipal aid. It was registered by G. R. No. 4108, General Department, dated 26th August 1910 and was supplied with copies of Reports and Official publications by the Bombay Government. It was inspected by the Acting Educational Inspector, C. D. and the Deputy Educational Inspector, Satara, during the year.

The State Records.

83. The State Records are neatly preserved in a fine building adjoining the Palace.

Fairs.

84. The principal Fairs at Phaltan are four and are held yearly at Phaltan in the months of Shravan, Margashirsha, Magh and Chaitra. Minor fairs were also held, as usual, at Javali, Kambleshwar, Kalaj and Salpa during the year of Report.

Concluding Remarks.

85. Such, in short, is the Report of the year's administration of the State. Though the year under report was below normal, the sum of Tribute Rs. 9,600 was paid, as usual, after meeting the necessary expenditure, and there is a handsome closing balance of Rs. 74,463-5-4 which shows the sound condition of the State's finances. Every attempt was made to preserve peace and order. Civil and Criminal Justice was, as usual, meted out efficiently and promptly. Epidemic did not visit the State to any appreciable extent, and so the public health was sound. The work of the local Municipality was highly commendable. Education and Medical aid received their proper share of attention. Public Works had more money expended on them. Takavi was advanced to make agricultural improvement. Every possible effort, in fact, was made to secure the well-being of my subjects.

86. I am glad to note here that my Karbhari, Mr. VASUDEO PANDURANG CHIRPUTKAR, B. A., LL. B. discharged his duties with zeal and promptness and to my entire satisfaction and rendered me valuable assistance in conducting the State administration.

87. I am highly glad to note here that I am deeply indebted to His Most Excellent Imperial Majesty King George V and Government for conferring upon me the Companionship of the most Exalted Order of the Star of India during the year. I have also to express my deep sense of gratitude to His Excellency, the Governor of Bombay in Council, the Hon'ble Mr. G. S. Curtis, C. S. I., I. C. S., Commissioner C. D. and to yourself for the valuable suggestions made and deep interest taken in my State affairs, when I have grown very old and my health has become very weak.

88. In conclusion, I beg to request you to kindly convey my hearty thanks to the Commissioner, C. D and Government for their favourable remarks on the preceding year's Administration Report.

I have the honour to be,

SIR,

Your most obedient servant,

(Sd.) M. J. NAIK NIMBALKAR,

Chief of Phaltan.

List of Appendices accompanying the Annual Administration Report of the Phaltan State for the year 1911—1912.

No.	Names of Appendices.
I	There is only one high officer and so the Appendix is not given.

THE
ANNUAL ADMINISTRATION REPORT
OF THE
PHALTAN STATE
FOR THE
FASLI YEAR 1322 (1912-1913).

FROM,

MUDHOJIRAO JANRAO NAIK NIMBALKAR, C. S. I.,
Chief of Phaltan.

To,

B. A. BRENDON, ESQUIRE, I.C.S.,
Political Agent, SATARA.

Phaltan, 2nd July, 1913.

SIR,

I have the honour to submit the Annual Administration Report of the Phaltan State for the Fasli year 1322 ending 6th June, 1913.

2. The usual Appendices accompany.

CHAPTER I.

General and Political.

3. The area of the State is 397 square miles. The population, according to the Census of 1911, is 55,996 including the persons on the Railway Stations within the State limits. The gross revenue (based on the average of past five years) is Rs. 2,23,611 including Alienations, Local Funds and all other items. The State pays an annual tribute of Rs. 9,600 to the British Government. The relations of the State with the British Government continue to be most cordial.

4. My full name is Mudhojirao Janrao Naik Nimbalkar, Deshmukh and Jahagirdar, Chief of Phaltan. My age is 75, and I am a Kshatriya by caste. My son Vyankatrao being dead, I adopted Malojirao alias Nanasaheb on the 28th December, 1899. He is 17 years old and is studying in Sardars' School at

Kolhapur under Mr. C. H. Candy, the late Principal of the Rajaram College, Kolhapur and Director of Public Instruction, Berars. I have intermarried with the families of Gujar, Jadhav, Shirke, Bhonsle, Ghadge and Mahadik of Satara, Malegaon Bk., Dervan, Mungi, Malavadi and Tarale respectively.

5. The most deplorable event in the year was the dastardly attempt on the life of H. E. the Viceroy Lord Hardinge at the State entry in Delhi. It was held in utter abhorrance and contempt by us all and we are highly thankful to the Almighty for having spared the Viceroy. The admirable courage shown by Her Excellency then and her presence of mind and resourcefulness were highly appreciated. On 2nd February a meeting of women of all classes was held at Phaltan presided over by my daughter-in-law, to present an address to Lady Hardinge congratulating Their Excellencies on their marvellous escape and on the fortitude shown by H. E. Lady Hardinge at the critical moment.

6. My birthday anniversary fell on the 28th November 1912, and the inhabitants of Phaltan expressed their sincere desire to celebrate it. It was celebrated by holding a Darbar by distribution of sweetmeats to boys and girls in all the schools and food to poor, by illuminating the town and by fireworks. I took this opportunity to give bonus equal to one-fourth of the monthly pay to low-paid servants who had not received anything last year at the time of the Coronation Darbar, along with others.

7. During the year Shrimant Balasahib Pandit Pant Pratinidhi—the Chief of Aundh—was a guest here for three days and also Radhubai alias Padmavatibai sahib daughter-in-law of H. H. the Maharaja Gaikwad of Baroda. She is the daughter of my nephew.

8. The other distinguished guests who visited Phaltan were Mr. C. H. Candy, the Principal of Sardars' School, Kolhapur, Mr. P. J. Fitz-Gibbon, Superintending Engineer, C.D., and Mr. L. J. Mountford, the Political Agent, Satara.

9. During the year my health was, I am sorry to say, much impaired and so I had to leave Phaltan and go to Bombay for a change. This change of climate had a salutary effect upon my health, and I feel much better now.

10. The work of Jamabandi and village inspection was done by the State Karbhari, as I was in Bombay on account of ill-health.

11. The Birth-day of His Most Excellent Imperial Majesty King George V, was celebrated on the 3rd June. All the schools and offices were closed. Prayers were offered to God in Shri Rama's Temple for the long life and prosperity of the King-Emperor.

12. There is no Residency official in the State. The high officers in this State are shown in Appendix I.

13. By the appointment of Special Adviser, my work has been much lightened and I was thus able to recoup my health.

CHAPTER II.

Administration of Land.

14. The work of the Revision Survey Settlement of the State was done in 1894, and the rates of assessment then fixed have been guaranteed for 30 years and are realised in two instalments (February and March). The rayats pay the new rates with ease except in bad years.

15. During the year 363 Acres were taken up for cultivation.

16. During the year in question there were no Alienations nor Boundary Settlements. Tagai amounting to Rs. 155 was given during the year for wells and Tals.

17. Rainfall during the year was rather deficient in the beginning, but late rains being favourable, there was no necessity of granting any suspensions. However water-rate to the extent of Rs. 5,313 out of Rs. 7,652 had to be remitted. The approximate Land Revenue demand, according to the Jamabandi, amounted to Rs. 1,29,192 as against Rs. 1,25,885 of the previous year. The total collections of the Land Revenue including arrears amounted to Rs. 1,65,957 as against Rs. 1,03,254 of the past year. The arrears to be recovered, amounted to nearly Rs. 53,065 as against Rs. 94,319. It will thus be seen that the collections were satisfactory this year.

CHAPTER III.

Protection.

Legislation.

18. The Acts and Regulations in force in the State are given in Appendix II. No new enactments were introduced during the year under report.

Military Force.

19. There is no Military Force in the State, and so Appendix III is blank.

Police.

20. Appendix IV shows the details about the strength, discipline, education and cost of the Police force in the State. The number of regular Police is 49 of whom 7 are armed with smooth-bore rifles. The Garrison are 37 in number (out of whom, 28 are armed with smooth-bore rifles and two with hunting ones). They guard the Palace, the Treasury and the Jail. The Sowars or the Mounted Police, 12 in number, are armed with swords and spears, and assist the regular Police in times of emergency. Besides the above, there is an irregular Police force of 40, called Shibandi, who discharge such miscellaneous duties as cannot be performed by the regular Police.

21. There was no case of murder during the year. There was only one dacoity in which three or four shepherds were alleged to have been assaulted, and one sheep stolen away. The total number of offences was 108, as against 138 of the past year. Out of this number, in 86 cases, either no offence was found to have been committed or it was too trivial. In two cases prosecution was sanctioned under Sec. 211, I.P.C. The lowest grade of the Police Constable is of Rs. 6. However it is under contemplation to raise it next year.

22. One Constable was departmentally fined for negligence.

23. Out of the whole Police force, 77 against 94 can read and write.

24. Appendix IV gives the total number and cost of the body.

25. The ratio of the Police to the area and to the population is 1 : 8 and 1 : 405 respectively.

26. Appendices V, VI and VII show the results of the working of the Police. The village Police consist of Police Patels and watchmen who are all hereditary Vatandars. They perform the duty of preventing crime, cattle impounding and serve partly on service tenure and partly on remuneration in cash.

27. During the year of report, property worth about Rs. 3,685 as against Rs. 2,380 was destroyed by accidental fire. The number of accidental deaths was 18 against 20 of last year.

Criminal Justice.

28. Appendices VII and VIII give the various Criminal Courts at work in the State during the year. The Huzur Criminal Court, presided over by myself, is the chief Criminal Court and ordinarily exercises High Court Criminal powers. The Karbhari ordinarily exercises the powers of the District Magistrate and is occasionally invested with the powers of the Court of Session. Besides these, there were two Courts of Subordinate Magistrates as last year.

29. The total number of offences dealt with was 391 as against 365 by the Original Criminal Courts. Of these, 385 were disposed of, including 7 of the previous year, thus leaving 13 at the end of the year. The total number of persons dealt with during the year was 687 as against 625. Of these, 134 were convicted, 256 were discharged, 268 were acquitted, one was committed to the Sessions Court, 15 were transferred and 13 remained pending trial at the end of the year. Section 250 of C. P. C. was applied in a few cases to prevent frivolous prosecutions and also prosecutions were instituted in 2 cases under Sec. 211, I. P. C.

30. The work of the Appellate Courts will be seen from Appendix IX.

Civil Justice.

31. There is one Huzur High Court, one First Appellate Court and one First Class Sub-Judge's Court exercising original jurisdiction. The First Appellate Court is presided over by the State Karbhari.

32. Appendix X gives the requisite information as regards the Civil work done by the Court of First Instance. There were 238 suits on the file, during the year as compared with 164 of the past year. Out of which, 189 were disposed of as against 158 last year, leaving 49. The new amendment of the Indian Limitation Act IX of 1908 having been made applicable to this State, a larger number of suits than usual was filed in Court in November last, which could not be disposed of before the end of the year ; thus leaving so many cases in arrears. The average duration of suits was smaller than that of the last year being 2 months and 10 days as against 4 months and 23 days. The ratio of suits to population is 1 : 235.

33. Appendix XI shows the number of applications for the execution of decrees.

34. The value of suits of immoveable property, money and other transactions, was much increased being Rs. 62,463 as against Rs. 21,499 owing to the sudden influx of suits.

35. Appendix XII shows the work done by the Civil Appellate Courts. Two Special Appeals were presented to the Huzur High Court, of which one was disposed of and one remains.

Mamlatdar's Court.

36. During the year there were 41 suits under Act II of 1906, out of which 39 were disposed of.

Extradition.

37. No person was surrendered to or brought from the British Districts for trial during the year.

Prisons.

38. The State jail is situated near the Mamlatdar's Court, and in front of the Palace. Its rooms are provided with strong iron bars, and admit of ample light and free ventilation.

39. There are two lock-ups in the Mamlatdar's Court for prisoners under trial. The average period of detention was 4 hours, against 13 hours of the year before.

40. Appendix XIII gives information concerning the total number of prisoners and the cost incurred on their account. The annual total cost per head including the establishment expenses was Rs. 144 and the earning per head was Rs. 34.

41. The prisoners are treated according to most of the British Jail Rules. The State Medical Officer is the Jail Superintendent and looks after the Sanitary condition of the prisoners. Their health and conduct were satisfactory. There was no casuality amongst them during the year.

42. The visitors paid visits to the Jail every month, as usual, and found everything in good order.

Registration.

43. Appendices XIV and XV give information regarding the work done by the Registration Department. The number of documents registered during the year was 2,595 as against 3,079 of the last year. The receipts and expenditure of the Registration Department were respectively Rs. 2,502 and Rs. 889 as against Rs. 2,788 and Rs. 874 of the last year.

Municipal Administration.

44. In the State there is only one Municipality at Phaltan. The General Body consists of 16 members half elected and half nominated. The General Body met 6 times and the Managing Committee which consists of 7 members met 33 times for the disposal of Municipal work.

45. Appendix XVI shows, that the receipts and expenditure of the Phaltan Municipality, were Rs. 11,898 and Rs. 11,936 respectively as against Rs. 12,132 and Rs. 10,653 of the previous year; and the closing balance was Rs. 3,934. This shows, that the financial state of the Municipality is sound.

46. Ample provision has been made for cleaning, lighting and watering of streets. By reason of the improved state of sanitation, though there were a few imported cases of cholera this year, there were no indegeneous cases. The general sanitation and water-supply have been kept at a high level as before, as will be seen from the remark left by Shrimant Pratinidhi when he visited Phaltan :—

30th December 1912.

"The town is kept in excellent order. The water-supply is a special boon bestowed on the people by the renowned ruler of the State. The gardens are excellent and full of sweat flowers and plants. The place seems clean and sanitation is carefully looked after".

(Sd.) B. S. PANT,
Chief of Aundh.

CHAPTER IV.

(1) Weather and Crops.

47. Appendix XVII gives the rainfall in the State during the year as compared with that of the previous year, and the average of the last five years. The total rainfall of the year was a little less than that of the previous year. The late rains (September to November) were specially favourable. The early rains were not favourable to Kharip, and hence its outturn was but poor. However Rabi being the principal crop, the situation was saved by the late rains. Out of 73 villages, the outturn of Rabi was annas eight and above in 28 villages. In the remaining it was about six annas. On the whole the year was not a bad one.

(2) Prices of food-grains.

48. The prices of food-grains are shown in Appendix XVIII. From that it will be seen that there is but a slight change for the better in the stapple food-grains.

(3) Wages and Labour.

49. The wages of the skilled and unskilled labourers are (10 to 16 annas and 4 to 6 annas respectively) just the same as they were in the last year; but they are slightly increasing on account of the Nira Right Bank Canal work having been commenced in the State.

(4) Forest.

50. The total area of Forest in the State was Acres 13741, the same as before. New plantation is as usual in progress. Public gardens at Phaltan are as good as before. The receipts and expenditure are Rs. 2,020 and Rs. 446 as against Rs. 1,575 and Rs. 475 respectively.

(5) Trades and Manufactures.

51. There is no flourishing trade nor any manufacture in the State as the people here are mostly confined to agriculture. Rice, cocoanuts, sugar, salt and other articles of daily use are imported here, whereas Jowari, Bajri, wheat, Kardi-oil, etc., are the principal articles of export. The principal manufactures are silk and cotton Dhoteers, Sarees and country blankets. The hand-looms and oil presses in the State were 152 and 50 at work as against 201 and 36 in the last year. One flour-mill has been opened at Phaltan lately and is working well.

(6) Public Works.

52. Appendix XIX shows the new works as well as the repairs made out of the State and Local Funds. The expenditure on the same being Rs. 27,147 as against Rs. 43,070.

(7) Post Offices.

53. There are three Post Offices in the State viz. at Phaltan, Taradgaon and Wathar. Two new Post Offices are shortly to be opened at Kalaj and Pimprad. Telegraph Office will also be shortly opened at Phaltan.

(8) Mint.

54. There is no Mint in this State.

(9) General condition of the people.

55. The season this year was more favourable than that of the past year. This had some effect on the condition of the people. There is a noticeable decrease in the sale and mortgage deeds as will be seen from Appendix XV. The prices, too, of staple food-grains have fallen slightly. The demand for labour has increased, and the canal work greatly adding to it, the wages have a tendency to increase. Fodder-supply was adequate and the number of plough cattle has materially increased, as will be seen from Appendix XX. From this it will be seen that the condition of the people has improved during the year. Owing to deficiency of water supply, Cholera broke out at Shinganapur at the annual Fair and was carried to Phaltan and 20 villages in the State. But

prompt measures were taken and the epidemic was easily brought under control. Outside labourers have come in, from Khandesh, Ahmednagar and other places on the Canal work.

CHAPTER V.

Revenue and Finance.

56. Appendix XXII compares the total receipts and expenditure of the State for the year under report with those of the year before.

57. The opening balance was Rs. 74,463 as against Rs. 79,689 of the past year, and the closing balance is Rs. 1,03,754. The gross total revenue of the State of the year under report was Rs. 2,96,908 as against Rs. 2,25,629. The increase is chiefly under Land Revenue, Stamps and Tolls. That under Land Revenue was Rs. 62,703. As already remarked, the season was a fair one, and prompt measures were taken in collections. The credit is due to the Special Adviser and to the State Karbhari, Mr. L. K. Phansalkar. Consequently a considerable amount of the past arrears was collected and very little was left from the current year's revenue. The increase under Stamps was due to many more suits having been filed on account of the application of the new amendment of the Indian Limitation Act IX of 1908 and that under Tolls was due to favourable season and consequent increase in traffic. The chief decrease was under Tagai, Deposits and Miscellaneous. That under Tagai was due to greater Land Revenue collections. Few Deposits were received during the year.

58. Under expenditure the increase on Khasgi(my personal expenditure) was due to my stay in Bombay for about 4 months for the benefit of my health, and I am glad to say that the extra money was not spent in vain. The increase under establishments and Law and Justice was due to the employment of the Special Adviser. Under Devasthan past arrears were paid and hence the increase. Under Police the increase is due to expenditure for Garrison, more expenditure on account of dearness of fodder for sowars and employment of temporary hands owing to my absence in Phaltan. Under Education the increase is mainly due to my son being kept at Kolhapur. Owing to substantial receipts the Deposits were returned.

59. The State is not in debt.

CHAPTER VI.

Vital Statistics.

60. Appendix XXIV shows the number of births and deaths during the year as compared with the preceding year. The variation in birth-rate was but slight, but the increase in death-rate was due to cholera and small-pox.

Medical Relief.

61. There is one Charitable Dispensary at Phaltan. Appendix XXIII shows the number of In-patients and Out-patients treated during the year. The average daily attendance was 152·7. During the year the In-patients were 16 and Out-patients 8371 as compared with 14 and 7026 respectively of the last year. This increase was due to free medical aid left open to all.

62. During the year the Chief of Aundh visited the Dispensary and left the following remark :—

29th December 1912.

"Visited the Dispensary to-day. Everything is in excellent order. Poisons kept under the Medical Officer's own lock and key. Instruments might be cleaner than they are. Room for In-patients clean and tidy. All seemed, on the whole, satisfactory. The Medical Officer seems popular and is highly spoken of."

(Sd.) B. S. PANT,
Chief of Aundh.

Sanitation and Vaccination.

63. The Phaltan Municipality looks after the sanitation of the town of Phaltan under the supervision of the Inspector of Sanitation and Vaccination and the Health Officer, while the general sanitation of the State villages is directly supervised by the same officers through the village Panchayats.

64. There was an outbreak of Small-pox at Phaltan and a number of villages in the State. Vaccination as well as re-vaccination was at once resorted to, to check the general spread of the dire disease.

65. The following statement gives the particulars of vaccination :—

Year.	No. of persons vaccinated.	Results.		Unknown.	Remarks.
		Successful.	Unsuccessful.		
1911—12	1722	1639	12	70	1 person was re-vaccinated.
1912—13	1869	1736	3	79	51 persons were re-vaccinated.

CHAPTER VII.

Education.

66. The description of schools in the Phaltan State is given in Appendix XXV. The number of schools is the same as the last year viz. 37. The total number of scholars was 1913 as against 1881 of the last year. Out of these schools, one is a High School at Phaltan where education is imparted upto Matric and School Final Examinations. There is also one Vedic School, one Girl School and one Night School at Phaltan. While the remaining schools are purely vernacular for boys and girls.

67. Out of the 7 students sent up for the Matriculation Examination of the Bombay University and out of the 3 students sent up for the School Final Examination, 2 and 3 students respectively came out successful. Drawing is taught to the boys in the Mudhoji High School. This year 17 boys were sent up for all the grades of Art Examination, out of whom 14 came out successful, 11 boys out of 13 that were sent for the 1st Grade, 1 out of 2 for the 2nd Grade, and both that were sent for the 3rd Grade came out successful. These results are satisfactory.

68. The Deputy and Assistant Deputy Educational Inspectors of the Satara District inspected all the schools and have left favourable remarks for all schools with the exception of one or two. The schools were also inspected by the Deputy Educational Inspector of the State as well as by the Karbhari, while on tour.

69. In the Mudhoji High School a Shastri is engaged to give the boys religious and moral education.

70. The Emperor George Scholarship, specially kept to commemorate the Coronation Darbar at Delhi, was awarded to shankar Keshav Velankar who stood first among the successful candidates in the Matriculation from the Mudhoji High School. He has joined the Fergusson College, Poona.

71. The total Expenditure on Education was Rs. 11,987 as against R. 11,717.

CHAPTER VIII.

Miscellaneous.

Printing Press.

72. There is no private Printing Press at Phaltan. There is only one State Litho-printing Press which is used for printing official forms required by the several Departments of the State.

Libraries.

73. The splendid Victoria Diamond Jubilee Library at Phaltan is situated in the heart of the town and is well supplied with a large number of books and newspapers. It is supported partly by private subscription and partly by State and Municipal aid. It was registered in 1910 and is supplied with copies of reports and official publications of the Bombay Government, and also with the copies of the Gazette of the India Government. The Library was visited by Mr. Fitz-Gibbon, Superintending Engineer, C.D., who has left the following remark:—

Phaltan 25th January 1913.

"Visited to-day. I was much pleased with what I saw. Everything was in apple-pie order."

(Sd.) P. J. FITZ-GIBBON,
S. E., C. D.

The State Records.

74. The State Records are carefully preserved in a separate building near the Palace.

Fairs.

75. The four principal fairs at Phaltan were held in the months of Shravan, Margashirsha, Magh and Chaitra respectively. Minor fairs were also held at Javali, Kambaleshwar, Kalaj and Salpa. But the fair at Dhuldev was stopped owing to the outbreak of Cholera there.

Concluding Remarks.

76. Thus on the whole is the account of the year under report. The year threatened to be a bad one, but for the late rains the whole aspect was changed and the revenue came in quite well. Peace and order was well preserved, and hence there were no serious offences. Though Cholera made its appearance for a short time, it was soon put down, and on the whole, public health was good. Municipality has kept its former repute. Education and Medical aid have received their due attention. Thus every possible effort was made to keep up to your remarks on my administration.

77. In conclusion, I beg to request you to kindly convey my hearty thanks to the Commissioner, C. D. and Government for their favourable remarks on my last year's Administration.

I have the honour to be,

Sir,

Your most obedient servant,

(Sd.) M. J. NAIK NIMBALKAR,

Chief of Phaltan.

List of Appendices accompanying the Annual Administration Report of the Phaltan State for the year 1912—1913.

THE

ANNUAL ADMINISTRATION REPORT

OF THE

PHALTAN STATE

FOR THE

FASLI YEAR 1323 (1913-1914).

FROM,

MUDHOJIRAO JANRAO NAIK NIMBALKAR, C. S. I.,

Chief of Phaltan.

To,

B. A. BRENDON, ESQUIRE, I. C. S.,

Political Agent, SATARA.

Phaltan, 30th June, 1914.

SIR,

I have the honour to submit the Annual Administration Report of the Phaltan State for the Fasli year 1323 ending 6th June 1914.

2. The usual Appendices accompany.

CHAPTER I.

General and Political.

3. The area of the State is 397 square miles. The population, according to the Census of 1911, is 55,996 including the persons on the Railway Stations within the State limits. The gross revenue (based on the average of past five years) is Rs. 2,40,928 including Alienations, Local Funds and all other items. The State pays an annual tribute of Rs. 9,600 to the British Government. The relations of the State with the British Government continue to be most cordial.

4. My full name is Mudhojirao Janrao Naik Nimbalkar, Deshmukh and Jahagirdar, Chief of Phaltan. My age is 76 and I am a Kshatriya by caste. My son Vyankatrao being dead, I adopted Malojirao *alias* Nanasaheb on the 28th December 1899. He is 18 years old. He was studying in Sardar's School at Kolhapur under Mr. C. H. Candy. But it is now decided to send

him to Rajkot to join the Rajkumar College for higher education. I have intermarried with the families of Gujar, Jadhav, Shirke, Bhonsle, Ghadge and Mahadik, of Satara, Malegaon Bk., Dervan, Mungi, Malavdi and Taralé respectively.

5. To commemorate the happy event of the recovery of H. E. Lord HARDINGE the Viceroy of India, the children's day was celebrated here on the 20th June last. Sweetmeats were distributed to all the students in all the schools throughout the State and prizes were given to successful candidates. The ceremony at Phaltan was celebrated under the presidency of the Yuvaraj Nanasaheb and elsewhere under the Head Masters.

6. The most important event in my family, was the marriage of my son Malojirao *alias* Nanasaheb. The betrothal took place in June last with the second daughter of Raje Shambhusing Jadhavrao of Malegaon. I had previous connection with that family and so the present connection is not altogether a new one. My son's thread-ceremony had to be performed, and it being necessary to perform it before marriage, it was celebrated formally on the 23rd of June. The marriage was fixed on the 18th December 1913, when distinguished guests—European and Indian—were invited. Among the European guests, who could grace the occasion by their presence, were Mr. and Mrs. Brendon, Mr. C. H. Candy, Mr. and Mrs. Hanckel and Mr. and Mrs. Gordon. The representatives of Baroda, Kolhapur, Bhor and Aundh, were present for the occasion. The ceremony passed off very successfully, though strict economy was observed in view of the impending scarcity. There was no such ceremony in my family for many years past, and so I am highly thankful to the Almighty for having brought about this occasion.

7. The other distinguished guest who visited the State during the year was Mr. S. Kadambi, the Superintending Engineer, Deccan Irrigation Division.

8. The work of Jamabandi and village inspection was done by the Special Adviser and the State Karbhari.

9. There is no Residency Official in the State. The High Officers in the State are shown in Appendix I.

10. By the appointment of Special Adviser, my work has been considerably lightened to the benefit of my health which was well maintained during the year.

CHAPTER II.

Administration of Land.

11. The work of the Revision Survey Settlement of the State was done in 1894, and the rates of assessment then fixed have been guaranteed for 30 years and are realised in two instalments (February and March). The Rayats pay the new rates with ease except in bad years.

12. During the year 151 Acres assessed at Rs. 121 were taken up for cultivation.

13. During the year there were no Alienations nor Boundary Settlements. Tagai amounting to Rs. 5,485 was given under Land Improvement Act—Rs. 5,435 for wells and Rs 50 for Tâls ; and Rs. 1,275 were given under Agriculturists' Loans Act for fodder &c. Thus in all Rs. 6,760 were distributed as against Rs. 155 of the past year. This large amount was necessary owing to insufficient rainfall and consequent bad year.

14. Rainfall during the year was only Inches 10-64. While the average is about Inches 18. And even this small amount was not seasonable ; nearly Inches 4–50 fell before the sowing time. Hence the useful rain was just enough for Kharip and Rabi sowings, but not sufficient to bring the crops to maturity. The year was thus a bad one. The approximate Land Revenue demand amounted to Rs. 1,26,737 for the current year and arrears Rs. 53,065 relating to past years. In the beginning of the year, before the prospects of the season were known, about Rs. 18,000 out of the arrears were recovered ; but when nature of the season was clear, remissions had to be granted and they amounted to Rs. 47,589 and only Rs. 65,026 were collected and Rs. 49,187 were left as arrears including the current year. A detailed statement is given in Appendix A. No coercive measures of any sort were resorted to during the year under report.

15. Besides the substantial grant of Tagai and remissions Cattle Kitchen was opened here by public subscription as a relief to poor agriculturists. In the Kitchen about 100 heads of cattle belonging to poor agriculturists, were maintained free of charge. Prices of fodder ruled high owing to scarcity in the State, but the permission kindly granted to purchase grass from the Lonand Depôt proved a great relief to the poor agriculturists. The establishment of the Depôt had a salutary effect on the prices of fodder in the State. No other relief measures were found necessary owing to Nira Canal Works in the State and the wages ruling high as before.

CHAPTER III.

Protection.

Legislation.

16. The Acts and Regulations in force in the State are given in Appendix II. The new enactments introduced during the year are :—

1. The Criminal Tribes Act (III of 1911).
2. The Land Acquisition Act (I of 1894).
3. The Bombay District Police Act (IV of 1890).
4. The Public Conveyances Act (VI of 1863) with amendment of 1887.

Military Force.

17. There is no Military Force in the State, and so Appendix III is blank.

Police.

18. Appendix IV shows the details about the strength, descipline, education and cost of the Police Force in the State. The number of regular Police is 49, of whom 7 are armed with smooth-bore rifles. The Garrison are 37 in number (out of whom 28 are armed with smooth-bore rifles and two with hunting ones). They guard the Palace, the Treasury and the Jail. The Sowars or the Mounted Police 12 in number are armed with swords and spears, and assist the regular police in times of emergency. Besides the above there is an irregular Police Force of 41 called Shibandi, who discharge such miscellaneous duties as cannot be performed by the regular Police.

19. As foreshadowed in the last year's report the pay of all the lower grades of Police has been raised (without reducing the strength) and no constable now gets less than Rs. 7 per month. There was no case of murder during the year. There were 4 highway robberies committed during the year. Three were committed in one night on 21–8–1913 near about the Lonand Station. From the nature of the offence it was suspected that wandering habitual offenders were concerned. And when the fourth offence was committed on the night of 4–10–1913 in the same vicinity, that suspicion was confirmed as the culprits were traced by the prompt and skilful action taken by the Phaltan Police, and it was ascertained that the same gang had committed the present offence being encouraged by their former success. Two constables who were placed on special duty to detect the previous offences, hearing the commission of this offence watched carefully the down passengers going by the next train at Lonand and detecting no suspects there, started by the very train, watching the incoming passengers en route. At last their efforts were crowned with success at Wathar when they came across with 3 persons answering the description of the culprits. The constables who were in plain clothes and passed off as ordinary passengers, questioned the persons and suspecting them to be the very culprits took them down at Koregaon and got them arrested with the aid of the Railway Police. It is learnt that the very persons had committed three highway robberies on the day previous to the commission of this offence and property belonging to these 4 offences was discovered on their person. They afterwards confessed having committed the previous 3 highway robberies of the State. They were first taken to Baramati for trial where they were committed to the Court of Sessions and got long terms of imprisonment. Had Phaltan Police not taken prompt and most skilful action, these offenders would not have been brought to justice. The Constables have been rewarded by the State by giving them promotions and the British Government have also recognized their good services by giving them money rewards amounting to Rs. 35 and certificates of merit. The total number of offences was 53 as against 108 of the last year.

When the Bhampta gang case was going on at Poona, the Police Inspector at Phaltan came across with one Bhampta here, though he had no information from the Poona Police, suspected him to be one of the gang and wandering under disguise, arrested him here and on Poona Police being informed

he was discovered to be one of the principal gangmen and most needed in the case. He ultimately got 10 years' imprisonment in the Sessions. The Police Inspector has for this, got a certificate of merit (of 100 marks) from the Deputy Inspector General, C. I. D.

20. Two Constables were departmentally fined for negligence.

21. Out of the whole Police force 83 against 77 can read and write.

22. Appendix IV gives the total number and cost of the body.

23. The ratio of the Police to the area and to the population is 1:8 and 1:405 respectively.

24. Appendices V, VI and VII show the results of the working of the Police. The Village Police consist of Police Patels and watchmen who are all hereditary Vatandars. They perform the duty of preventing crime, cattle-impounding and serve partly on service tenure and partly on remuneration in cash. Though the year was a bad one, the number of offences has been kept considerably low.

25. During the year property worth about Rs. 1,466 as against Rs. 3,685 was destroyed by accidental fire. The number of accidental deaths was 13 as against 18 of the past year.

Criminal Justice.

26. Appendices VII and VIII give the various Criminal Courts at work in the State during the year. The Huzur Criminal Court, presided over by myself, is the Chief Criminal Court and ordinarily exercises High Court Criminal powers. The Karbhari ordinarily exercises the powers of the District Magistrate and is occasionally invested with the powers of the Court of Session. Besides these, there were two Courts of Subordinate Magistrates as last year.

27. The total number of offences dealt with was 190 as against 391 of the previous year. Of these 185 were disposed of leaving 5 at the end of the year. The total number of persons dealt with during the year was 264 as against 687 of the last year. Of these 128 were convicted, 76 discharged and 53 acquitted, 3 committed to the Court of Session and 4 remained pending trial at the end of the year. The verification of complaints after careful scrutiny especially by the 2nd Class Magistrate has had a very salutary effect in reducing the number of frivolous complaints.

28. The work of the Appellate Courts will be seen from Appendix IX.

Civil Justice.

29. There is one Huzur High Court, one First Appellate Court and one First Class Sub-Judge's Court exercising original jurisdiction. The First Appellate Court is presided over by the State Karbhari.

30. Appendix X gives the necessary information as regards the Civil work done by the Court of First Instance. There were 249 suits on the file during the year with last year's balance of 55 as against 238 of the past year.

Of these 245 were disposed of, leaving 59. This year too, there was a larger number of suits owing to the application of the amendment of the Indian Limitation Act as in the last year. The average duration of suits was 3 months and 21 days as against 2 months and 10 days. The ratio of suits to population is 1:225.

31. Appendix XI shows the number of applications for the execution of decrees.

32. The value of suits of immovable property, money and other transactions was increased being Rs. 66,149 as against Rs. 62,463.

33. Appendix XII shows the work done by the Civil Appellate Courts.

Mamlatdar's Court.

34. During the year there were 34 suits under Act II of 1906 and all of them were disposed of.

Extradition.

35. Two persons were surrendered to the British Government during the year.

Prisons.

36. The State Jail is situated near the Mamlatdar's Court and in front of the Palace. Its rooms are provided with strong iron bars and admit of ample light and free ventilation.

37. There are two lock-ups in the Mamlatdar's Court for prisoners under trial. The average period of detention was 7 hours against 4 hours of the year before.

38. Appendix XIII gives information concerning the total number of prisoners and the cost incurred on their account. The annual total cost per head including the establishment expenses was Rs. 140 and the carning per head was Rs. 32.

39. The prisoners are treated according to most of the British Jail rules. The State Medical Officer is the Jail Superintendent and looks after the Sanitary condition of the prisoners. Their health and conduct were satisfactory. There was no casuality amongst them during the year.

40. The visitors paid visits to the jail every month as usual and found everything in good order.

Registration.

41. Appendices XIV and XV give information of the work done by the Registration Department. The number of documents registered during the year was 2626 as against 2595 of the last year. The receipts and expenditure of the Department were respectively Rs. 2531 and 709 as against Rs. 2502 and 889.

Municipal Administration.

42. In the State there is only one Municipality at Phaltan. The General Body consists of 16 members half elected and half nominated. The General Body met 6 times and the Managing Committee which consists of 7 members met 37 times for the disposal of Municipal work.

43. Appendix XVI shows that the receipts and expenditure of th Phaltan Municipality were Rs. 13,550 and Rs. 12,585 as against Rs. 11,898 and Rs. 11,936 respectively of the last year, leaving a closing balance of Rs. 4,899 as against the opening balance of Rs. 3,954 of the last year. This shows that the financial state of the Municipality is sound.

44. Ample provision has been made for cleaning, lighting and watering of streets. There were a few cases of Cholera but on account of the prompt sanitary measures the epidemic was soon put down. The general sanitation and water-supply have been kept at a level as before. During the year the work of constructing a decent Municipal Office has been taken in hand.

CHAPTER IV.

(1) Weather and Crops.

45. Appendix XVII gives the rainfall in the State during the year as compared with that of the previous year and the average of the last five years. The total rainfall of the year, was far below the average and as already remarked, a considerable quantity of it, was before the sowing time. Hence though Kharip and Rabi were sown the out-turn was very poor. Hence the year proved to be a bad one.

(2) Prices of food-grains.

46. The prices of food-grains are shown in Appendix XVIII. From that it will be seen that the prices are unchanged or vary but slightly.

(3) Wages and Labour.

47. Wages of skilled and unskilled labourers were the same as last year and were not affected by the condition of the season owing chiefly to the construction work of the Nira Right Bank Canal going on within the State limits.

(4) Forest.

48. The total area of Forest in the State was Acres 13741, the same as before. New plantation is as usual in progress. Public gardens at Phaltan are in the same state as before. The receipts and expenditure are Rs. 1,695 and Rs. 451 as against Rs. 2,020 and Rs. 446 respectively.

(5) Trades and Manufactures.

49. There is no industrial enterprise of any kind in the State as the people are mostly agriculturists. Besides Cocoanuts, sugar, salt the usual

articles of import—Jowari, Bajri and fodder too, were imported this year owing to scarcity. The principal manufactures are silk and cotton Dhoteers, Sarees and country blankets by hand-looms. The hand-looms and oil-presses in the State are 129 and 50 as against 152 and 50 of the last year. One flour-mill, which was opened last year is working well.

(6) Public Works.

50. Appendix XIX shows works undertaken out of the State and Local Funds, the expenditure on the same being Rs. 9,456 as against Rs. 27,146.

(7) Post Offices.

51. There are 5 Post Offices in the State *viz.* at Phaltan, Taradgaon, Wathar, Kalaj and Pimprad. Telegraph Office has been opened here from the 1st February and since then it is working very satisfactorily, its income being much above the minimum required.

(8) Mint.

52. There is no Mint in the State.

(9) General condition of the people.

53. This year's season was a very poor one, which has reflected to some extent on the condition of the people. There is a noticeable increase in the sale-deeds and the money-bonds too, have slightly increased, as will be seen from Appendix XV. However, the people have not suffered much owing to the demand for labour continuing as before and prices remaining unchanged. Fodder supply was quite inadequate but it was supplemented by the importation of Kadba and grass to a large extent. However, this had effect, in reducing the number of cattle though not to a large extent as will be seen from Appendix XX. Though water supply was deficient, Cholera broke out only in two or three villages this year, owing to village fairs having been stopped in all villages and prompt measures having been taken. The number of deaths was smaller this year, than that of the last year. Hence it will be seen that the condition of the people, though suffered, suffered but slightly.

CHAPTER V.

Revenue and Finance.

54. Appendix XXII compares the total receipts and expenditure of the State for the year under report with those of the year before.

55. The opening balance was Rs. 1,03,754 as against Rs. 74,463. The gross total revenue of the State of the year under report was Rs. 1,52,976 as against Rs 2,42,952. The decrease is chiefly under Land Revenue, Local Funds and Tagai. Last year the season being a fair one, considerable arrears were

recovered besides the current demand. But this year being a bad one, the collections were poor. The increase under opium is only apparent as the cost of opium is now included, the State having to purchase opium by cash at the Government Depôt from this year; while last year's figure represented only the net revenue. The increase under Law and Justice, was due to recovery of arrears of fine. The decrease and increase under other heads are but slight.

56. The expenditure on the whole, has also considerably decreased. There is large increase in Tagai advances, however, owing to bad season. The reason for apparent increase in receipts of opium explains the corresponding increase in expenditure. The expenditure on Khasgi was as usual. Last year additional expenditure was incurred owing to my health and hence the decrease this year. The decrease under Devasthan is due to payment of arrears last year. That under Local Fund works, is due to want of rain necessary for road repairs. Under Police, there should have been increase owing to rise in the salary of lower grades, but last year extra expenditure having been incurred on additional temporary hands and on dress of garrison, the decrease appears. That under Public Works is due to small collections and want of rain.

57. The expenditure on marriage and thread ceremony of my son was a a special one, but was kept as low as possible by the special care taken by the Special Adviser.

58. The State is not in debt.

CHAPTER VI.

Vital Statistics.

59. Appendix XXIV shows the number of births and deaths during the year as compared with the preceding year. The increase in birth-rate is due to more careful registration and the decrease in death-rate is due to few deaths from cholera and small-pox

Medical Relief.

60. There is one Charitable Dispensary at Phaltan. Appendix XXIII shows the number of In-patients and out-patients treated during the year. The average daily attendance was 169·8. The In-patients were 16 and out-patients 7598 as compared with 16 and 8371 respectively of the last year.

Sanitation and Vaccination.

61. The Phaltan Municipality looks after the sanitation of the town of Phaltan under the supervision of the Inspector of Sanitation and Vaccination and the Health Officer, while the general sanitation of the State villages is directly supervised by the same officers through the village Panchayats.

62. There were a few cases of small-pox at Phaltan and in a few villages, but the disease was soon put down owing to prompt measures.

63. The following Statement gives the particulars of vaccination :—

Year.	No. of persons vaccinated.	Results.		Unknown.	Remarks.
		Successful.	Unsuccessful.		
1912 -13	1869	1736	3	79	51 persons were re-vaccinated.
1913—14	1537	1128	3	105	1 person was re-vaccinated.

CHAPTER VII.

Education.

64. The description of Schools in Phaltan State is given in Appendix XXV. The number of schools was 35 as against 37. Two schools had to be closed owing to small attendance on account of bad season. The total number of scholars was 1853 as against 1913 of the last year. Out of these schools one is a High School at Phaltan where education is imparted upto Matric and School Final Examinations. There is also one Vedic School, one girl school and one Night School at Phaltan. While the remaining schools are purely vernacular for boys and girls.

65. Out of 9 Students sent up for the Matriculation Examination of the Bombay University, five were successful and out of 8 students sent up for the School Final, 5 came out successful from the Mudhoji High School. 15, 5 and 6 students were sent for the different grades of Art Examinations, out of which 12, 2 and 6 respectively were successful. These results are satisfactory.

66. The Deputy and Assistant Deputy Educational Inspectors of the Satara District inspected all the schools and have left favourable remarks. The schools were also inspected by the Deputy Educational Inspector of the State as well as by the Karbhari, while on tour.

67. The Emperor George Scholarship specially kept to commemorate the Coronation Darbar at Delhi was awarded to Mahadeo Govind Ranade who stood first among the successful candidates in the Matriculation from the Mudhoji High School. He has joined the Fergusson College, Poona.

68. The total expenditure on education was Rs. 11,468 as against Rs. 11,987 of the last year.

CHAPTER VIII.

Miscellaneous.

Printing Press.

69. There is no private Printing Press at Phaltan. There is only one State Litho-printing press which is used for printing official forms required by the several Departments of the State.

Libraries.

70. The splendid Victoria Diamond Jubilee Library at Phaltan is situated in the heart of the town and is well supplied with a large number of books and news-papers. It is supported partly by private subscription and partly by State and Municipal aid. It was registered in 1910 and is supplied with copies of reports and official publications of the Bombay Government and also with the copies of the Gazette of the India Government.

The State Records.

71. The State Records are carefully preserved in a separate building near the Palace.

Fairs.

72. The four principal fairs at Phaltan were held in the months of Shravan, Margashirsha, Magh and Chaitra respectively. All other minor fairs were stopped to check the spread of Cholera which was threatening on account of the deficiency of water.

Concluding Remarks.

73. Thus on the whole is the account of the year under report. The year was a bad one, but owing to demand for labour being kept up and the prices not rising high and liberal distribution of Tagai, it was well sustained by the people. Peace and order was well preserved and there was no increase in crime as expected. The only epidemic disease namely cholera had broken out but it was soon put down. On the whole public health was good as is shown by birth and death-rates. The Municipality has worked satisfactorily as before. Education and Medical aid were carefully looked after. Thus no effort was spared to mitigate the evil effects of a bad season as much as possible.

74. I feel pleasure to state that my State Karbhari Mr. L. K. Phansalkar, B. A. LL. B., has worked zealously during the year. He is promising and with more experience he will turn out a good officer.

75. I am glad to note from the experience of the work for more than a year of my Special Adviser Mr. G. B. Naralkar, L. C. E., that he is hard-working, just and economical in State-management, his work has given me entire satisfaction. I am receiving important help from him in administration and my work is much lightened thereby.

76. In conclusion I beg to request you to kindly convey my hearty thanks to the Commissioner, C. D. and Government for their remarks on my last year's Administration.

I have the honour to be,
Sir,
Your most obedient servant,
(Sd.) M. J. NAIK NIMBALKAR,
Chief of Phaltan.

List of Appendices accompanying the Annual Administration Report of the Phaltan State for the year 1913-1914.

No.	Names of Appendices.

THE
ANNUAL ADMINISTRATION REPORT
OF THE
PHALTAN STATE
FOR THE
FASLI YEAR 1324 (1914-1915).

:o:

FROM,

MUDHOJIRAO JANRAO NAIK NIMBALKAR, C. S. I.,
Chief of Phaltan.

To,

B. A. BRENDON, ESQUIRE, I.C.S.,
Political Agent, SATARA.

Phaltan 5th July, 1915.

SIR,

I have the honor to submit the Annual Administration Report of the Phaltan State for the Fasli year 1324 ending 6th June 1915.

2. The usual Appendices accompany.

CHAPTER I.

General and Political.

3. The area of the State is 397 square miles. The population according to the Census of 1911, is 55,996 including the persons on the Railway Stations within the State limits. The gross revenue (based on the average of past five years) is Rs. 2,21,153 including Alienations, Local Funds and all other items. The State pays an annual tribute of Rs. 9,600 to the British Government. The relations of the State with the British Government, continue to be most cordial.

4. My full name is Mudhojirao Janrao Naik Nimbalkar Deshmukha and Jahagirdar, Chief of Phaltan. My age is 77 and I am a Kshatriya by caste. My son Vyankatrao being dead, I adopted Malojirao alias Nanasaheb on the 28th December, 1899. He is 19 years old. He was sent to Rajkot to study in

the Rajkumar College in July last and he is now studing there. This change has a decided improvement upon his health, education and general culture. During the two terms he has kept in the College he has secured good opinion of the Principal who says that "He is doing very well in his work." I have intermarried with the families of Gujar, Jadhav, Shirke, Bhonsle, Ghadge and Mahadik, of Satara, Malegaon Bk., Dervan, Mungi, Malavadi and Tarale, respectively.

5. The most deplorable event of the year was the death of Her Excellency the Lady Hardinge. Though sincere sympathy was felt for Her Excellency, nothing could be done beyond closing Public Offices and Schools and sending a message of condolence.

6. The most noteworthy event of the year, is the out-break of war between His Majesty's Government and Germany. Soon after its declaration a public meeting was held under my presidency on 16-8-14, in which feelings of loyalty and devotion to the British Crown were sincerely expressed. Besides sending my humble quota to the War Relief Fund, Bombay Branch, a public meeting was held on the 18th August to collect subscription from the people of this State and accordingly a sum of Rs. 800 was collected and sent. On the initiation of Her Excellency Lady Willingdon, the ladies of Phaltan under the presidency of my daughter-in-law also convened a meeting and a subscription of Rs. 400 was sent to the women's branch.

On receipt of the Royal Message it was announced to all my subjects in an open Darbar, when great admiration was felt for the real cause of the war. Telegraphic summary of war news received day by day was also promulgated rendering it in the vernacular. A public lecture was also given with the aid of maps to prevent the spread of false rumours and to enlighten the public about the real state of the war.

7. The distinguished guests who visited the State daring the year were the Inspector-General of Irrigation in India, Secretary and Chief Engineer of Irrigation, Bombay, Mr. Cadambi, Superintending Engineer, Deccan Irrigation Division, in connection with the Nira Right Bank Canal. Mr. Hood the Sub-Divisional Officer, Mr. Davidson and Mr. Smart in connection with Sugarcane Survey.

8. The work of Jamabandi and Village inspection was done by the Special Adviser and the State Karbhari. However, I arranged a small tour, as my health permitted, to see personally the state of things and visited Javali, Nimblak, Rajale, Kalaj and Nimbhora.

9. There is no Residency Official in the State. The High Officers in the State are shown in Appendix I.

10. My work continues to be considerably lightened by the presence of the Special Adviser and it has a decided effect upon my health during the year under report.

CHAPTER II.

Administration of Land.

11. The work of the Revision Survey Settlement of the State was done in 1894 and the rates of assessment then fixed have been guaranteed for thirty years and are realised in two instalments (February and March). The Rayats pay the new rates with ease except in bad years.

12. During the year 61 acres assessed at Rs 30-8-0 were taken up for cultivation.

13. During the year there were no alienations nor Boundary Settlements. As the rainfall was above normal, only Rs. 250 were given as Tagai under Land Improvement Act; but on account of previous bad season Rs. 1, 4 45 were distributed under Agriculturists' Loans Act. Thus in all Rs. 1,695 were given as Tagai.

14. Though the rainfall was above normal, it was not so very well distributed and hence the year was a fair one. The approximate land revenue demand amounted to Rs. 1,25,511 for the current year and arrears Rs. 47,494 relating to past years. Out of this Rs. 1,16,612 from the current year and Rs. 31,240 from the past years were collected, and only a small amount had to be remitted. A detailed Statement is given in Appendix A. As a measure against contumacy fine under Sec. 148 was inflicted in select cases numbering about 37, and movable property was attached only in 5 cases. In the case of Sheri Lands forfeiture had to be resorted to in 4 cases. These were the only coercive measures employed during the year.

CHATPER III.

Protection.

Legislation.

15. The Acts and Regulations in force in the State are given in Appendix II. The new enactments introduced during the year are :—

III of 1910	An Act further to amend the Bombay Hereditary Offices Act and the Matadars Act, 1887.
Ordinance No 1 of 1914.	The Indian Naval and Military News (Emergency) Ordinance.
IV of 1913	An Act further to amend the Bombay Land Revenue Code. 1879.

Military Force.

16. There is no Military Force in the State and so Appendix III is not given.

Police.

17. Appendix IV. shows the details about the strength, descipline, education and cost of the Police Force in the State. The number of regular Police is 49 of whom 7 are armed with smooth-bore rifles. The Garrison are 37 in number (out of whom 28 are armed with smooth-bore rifles and 2 with hunting ones). They guard the Palace, the Treasury and the Jail. The Sowars or the mounted Police 12 in number are armed with Swords and Spears and assist the regular police in times of emergency. Besides the above, there is an irregular Police Force of 41 called Shibandi, who discharge such miscellaneous duties as cannot be performed by the regular Police.

18. On the retirement of the former Sub-Inspector on pension a new man Mr. Dange was brought in on probation and hence he was given only Rs. 25. But on his discharge the pay of the post has been made Rs. 40 as will be seen from Appendix IV. During the year the number of offences has considerably fallen and the percentage of conviction is a record one which shows greater vigilence and care in investigation on the part of the Police. No serious offence was committed during the year. New uniforms have been given to the whole force.

19. No constable was departmentally fined for negligence, but 10 persons were promoted.

20. Out of the whole Police Force those who can read and write are the same as last year, viz. 83.

21. Appendix IV gives the total number and cost of the body.

22. The ratio of the Police to the area and to the population is 1:8 1:405 respectively.

23. Appendices V,VI and VII show the results of the working of the Police. It is satisfactory to note that a small amount of property was stolen and all has been recovered. The Village Police consist of Police Patels and Watchmen who are all hereditary Vatandars. They perform the duty of preventing crime, cattle impounding and serve partly on service tenure and partly on remuneration in cash.

24. During the year property worth about Rs. 681 as against Rs. 1466 was destroyed by accidental fire. The number of accidental deaths was 18 as against 13 of the last year.

Criminal Justice.

25. The work of the various Criminal Courts is seen from Appendices VII and VIII during the year.

The Huzur Criminal Court presided over by myself is the Chief Criminal Court and ordinarily exercises High Court Criminal powers. The Karbhari ordinarily exercises the powers of the District Magistrate and is occasionally invested with the powers of the Court of Session. The Head Karkun here, was invested with third class powers and so there were three Magisterial Courts—Class I, II and III as against two of the past year.

26. The total number of offences was 331 against 190 of the previous year. The increase is chiefly due to cases under Municipal and other minor Acts. Of these 324 were disposed of, and 7 remained at the end of the year. The total number of persons dealt with during the year was 401 against 264 of the last year. Of these 289 were convicted, 14 discharged and 89 were acquitted.

27. The work of the Appellate Courts will be seen from Appendix IX.

Civil Justice.

28. There is no change in the number of Civil Courts. There is one Huzur High Court, one First Appellate Court aud one First Class Sub-Judge's Court exercising original jurisdiction. The First Appellate Court is presided over by the State Karbhari.

29. Appendix X gives the necessary information of the work done by the First Class Sub-Judge's Court. There were 235 suits on the file during the year and the last year's balance of 59 as against 249 of the past year. Of these 236 were disposed of, leaving a balance of 58. The average duration of suits is 3 months and 29 days as against 3 months and 21 days. The ratio of suits to population is 1:238.

30. Appendix XI shows the number of applications for the execution of decrees.

31. The value of suits of immovable property, money and other transanctions was Rs. 64,524 as against Rs. 66,149.

32. Appendix XII shows the work done by the Civil Appellate Courts

33. Hitherto the Sub-Judge's Court was in a hired building. But this year a special and specious building has been provided for it outside the town to the great convenience of the outside public.

Mamlatdar's Court.

34. During the year there were 17 suits under Act II of 1906 and all of them were disposed of.

Extradition.

35. Two persons were surrendered to the British Government during the year.

Prisons.

36. The State Jail is situated near the Mamlatdar's Court and in front of the Palace. Its rooms are provided with strong iron bars and admit of ample light and free ventilation.

37. There are two look-ups in the Mamlatdar's Kutcheri for prisoners under-trial. The average period of detention was 3 hours as against 7 hours of the year before.

38. Appendix XIII gives information concerning the total number of prisoners and the cost incurred for them. The annual total cost per head including the establishment expenses was Rs. 76 and the earning per head was Rs. 17.

39. The prisoners are treated according to most of the British Jail rules. The State Medical Officer is the Jail Superintendent and looks after the Sanitary condition of the prisoners. Their health and conduct were satisfactory. There was no casuality amongst them during the year.

40. The visitors paid visits to the Jail every month as usual and found everything in good order.

Registration.

41. Appendices XIV and XV give the details of the work done by the Registration Department. The number of documents registered during the year was 2,648 as against 2,624 of the last year. The receipts and expenditure of the Department were respectively Rs. 2,637 and 809 as against Rs. 2,531 and 709.

Municipal Administration.

42. In the State there is only one Municipality at Phaltan. The General Body consists of 16 members, half elected and half nominated. The General Body met 7 times and the Managing Committee which consists of 7 members, met 38 times for the disposal of Municipal work.

43. Appendix XVI shows that the receipts and expenditure of the Phaltan Municipality, were Rs. 15,523 and 16,997 as aganst Rs. 13,550 and 12,585 leaving a closing balance of Rs. 3,426 as against the opening balance of Rs. 4,899. During the year the Municipal revenue has much increased owing to better season and good supervision. The increase in expenditure was due to completion of the Municipal office which amounted to nearly Rs. 5,000.

44. Ample provision has been made for cleaning, lighting and watering of streets. In the beginning of the year owing to the deficiency of water-supply the people had to resort to new water in Banganga river; so cholera had broken out and lingered till the water-supply was improved in the month of September. Proper measures were, however, taken, and so there were only 45 cases in all. The general sanitation was kept as before, and water-supply was immensely improved.

45. The Municipal office which was under construction, was completed during the year and the Municipality is now housed in its own decent building. The term of the Municipality expired at the end of the year and arrangements are made for new elections. During the year the Municipality has worked very satisfactorily.

CHAPTER IV.

(*a*) Weather and Crops.

46. Appendix XVII shows the rain-fall in the State during the year as compared with that of the previous year and the average of the last five years. The rain-fall of the year, though more than the average, was not well distributed. Kharip was sown late at about the end of June. However it fared well. Heavy rain fell in the middle of August, but it was untimely for Rabi

sowing. Useful rain for that purpose came in the last week of September, and Rabi was sown. But no more useful rain having fallen, the out-turn of Rabi was only fair, and hence on the whole the year was a fair one.

(*b*) Prices of food-grains.

47. The prices of food-grains are as shown in Appendix XVIII. From that it will be seen that the prices of Jawari and Bajri have fallen, but those of gram and Tur have risen.

(*c*) Wages and Labour.

48. No change in wages of skilled and unskilled labourers, though there is a tendency to rise owing to the Canal works.

(*d*) Forest.

49. The total area of forest in the State was the same as before. Public gardens at Phaltan are in the same state as before. The receipts and expenditure are Rs. 2,139 and 497 as against Rs. 1,695 and 451.

(*e*) Trade and Manufactures.

50. There is no industrial enterprise of any kind in the State, as the people are mostly agriculturists. Besides Cocoanuts, Sugar and Salt, the usual articles of import, wheat and gram were imported. The principal manufactures are silk and cotton dhoteers, saries and country blankets by hand-looms. The hand-looms and oil-presses are 179 and 59 as against 129 and 50. The increase is due to better season. The flour-mill is also working well as before.

(*f*) Public Works.

51. Appendix XIX shows works undertaken out of the State and Local Funds, the expenditure on the same being Rs. 36,198 as against Rs. 9,456 of the past year. Last year being a bad one, no expenditure was incurred except in very urgent cases and hence the increase.

52. Owing to scanty rain-fall for a number of years especially the last, the water-supply at Phaltan ran down considerably and great difficulty was experienced in the beginning of the year. Subsequent rains improved it but temporarily. Hence the source of supply at Nirgudi had to be greatly extended. More than 600 feet of underground masonary trench at a depth of 40′ was constructed at a cost of Rs. 3,000 and I am glad to note that the project was completely successful, giving ample water-supply, such as was not experienced for many years before.

(*g*) Post Offices.

53. The Post Offices in the State are the same as before, viz. at Phaltan, Taradgaon, Wathar, Kalaj and Pimprad. The Telegraph Office opened at Phaltan last year, is working very satisfactorily. The income during the year was Rs. 667 which is far above the minimum.

(*h*) Mint.

54. There is no Mint in the State.

(*i*) General condition of the people.

55. The season was good for Kharip, but it was not quite favourable for Rabi, and hence the year was a fair one. Fodder-supply was sufficient and the agricultural stock has slightly increased, as will be seen from Appendix XX. Prices especially of staple food-grains have fallen. Water-supply being deficient in the beginning of the year, Cholera broke out in about 15 villages, but prompt measures being taken, the number of deaths was 175. Otherwise the Public health was good throughout the year. Oil and hand-loom industry has increased during the year, especially the former. Revenue came in easily. For, though coersive measures were employed in a few villages, they were mostly needed in the case of contumacious defaulters. Hence it will be seen that the general condition of the people was good and they withstood the last scarcity without any hardship.

CHAPTER. V.

Revenue and Finance.

56. Appendix XXII compares the total receipts and expenditure of the State for the year under report with those of the past year.

57. The opening balance was Rs. 82,245 as against Rs. 1,03,754. The gross total Revenue of the State of the year under report was Rs. 2,45,950 as against Rs. 1,52,976. The increase is chiefly due under Land Revenue and Deposits. Last year owing to bad season, only small amount of Revenue came in and hence the increase. Under Deposits, land compensation amount of about Rs. 10,000 is included. The increase and decrease under other heads are but slight.

58. The expenditure this year has resumed its normal figure. The expenditure under Khasgi was as usual. The increase under Prince's education is due to next year's fees being paid in advance. That under Vatandar Establishment is due to half-yearly payment made in February. Hitherto they were paid only once a year in the month of July. With-held works from last year were taken in hand this year, and hence the increase under Public Works. The increase under Police is partly due to increase under pay &c. The closing balance at the end of the year was Rs. 1,13,875 as against Rs. 82,425.

59. The State is not in debt.

CHAPTER VI.

Vital Statistics.

60. Appendix XXIV shows the number of births and deaths during the year, as compared with the last year. The increase and decrease in birth and death rates are but slight.

Medical Relief.

61. There is one Charitable Dispensary at Phaltan, which is working very well. Appendix XXIII shows the number of In-patients and Out-patients during the year. The average daily attendance is 174·5. The number of in-patients is 15 and that of out-patients 7,865, as compared with 16 and 7,598 respectively of the last year.

Sanitation and Vaccination.

62. The Phaltan Municipality looks after the sanitation of the town of Phaltan under the supervision of the Inspector of Sanitation and Vaccination and the Health Officer; while the General Sanitation of the State villages is directly supervised by the same officers through the Village Panchayats.

63. Only Cholera had broken out at Phaltan and other 14 villages, but it did not linger long. Small-pox had appeared only in one village.

64. The following statement gives the particulars of vaccination:—

Year.	Number of Persons Vaccinated.	Results.		Unknown.	Remarks.
		Successful.	Unsuccessful.		
1913—14	1537	1428	3	105	1 person was re-vaccinated.
1914—15	1474	1355	12	105	2 do were do.

CHAPTER VII.

Education.

65. The description of Schools in the Phaltan State is given in Appendix XXV. The number of Schools is 36 as against 35. The total number of scholars was 1,955 as against 1,853 of the past year. Out of these schools one is a High School at Phaltan, where education is imparted up to Matric and School Final Examinations. There is also one Vedic School, one girl-school and one night School at Phaltan. While the remaining Schools are purely vernacular for boys and girls.

66. Out of the 5 students sent up for the Matriculation Examination of the Bombay University, 2 were successful, and out of 11 students sent up for the School Final, 4 came out successful from the Mudhoji High School. 29, 1 and 5 students were sent for the different grades of Art Examinations out of which 12, 1, and 3 were successful.

67. The Deputy and Assistant Deputy Educational Inspectors of the Satara District inspected all the Shools and have left favourable remarks. The Schools were also inspected by the Deputy Educational Inspector of the State as well as by the Karbhari, while on tour.

68. The Emperor George Scholarship was awarded this year to Bhalchandra Luxman Velankar.

69. The total expediture on Education was Rs. 12,553 as against Rs. 11,468.

CHAPTER VIII.

Miscellaneous.

PRINTING PRESS.

70. There is no private Printing Press at Phaltan. There is only one State-Litho Printing Press which is used for printing official forms required by the several Departments of the State.

Libraries.

71. The splendid Victoria Diamond Jubilee Library at Phaltan is situated in the heart of the town and is well supplied with a large number of books and news-papers. It is supported partly by private subscription and partly by State and Municipal aid. It was registered in 1910 and is supplied with copies of reports and official publications of the Bombay Government and also with the copies of the Gazette of the India Government.

The State Records.

72. The State Records are carefully preserved in a separate building near the palace.

Fairs.

73. The four principal fairs at Phaltan were held in the months of Shravan, Margashirsha, Magha and Chaitra respectively. All other minor fairs were also held during the year.

Concluding Remarks.

74. The above is the account of the year under report. The year was a fair one and the prices of staple food-grains having fallen, it was good relief on the previous year. Peace and order was well preserved and the number of offences had considerably fallen. The only epidemic disease was cholera to arrest which, prompt measures were taken. The water-supply at Phaltan was greatly improved and on the whole the public health was good. The Municipality had worked very satisfactorily and Education and Medical aid carefully looked after. Thus every effort was made to promote the wel-fare of the people.

75. After experience of one more year I am heartily glad to repeat my remark made last year, about the Special Adviser Mr. G. B. Naralkar, L. C. E. I am glad to state that endowed as he is with many qualities, help given by him has considerably lightened my work.

76. In conclusion I beg to request you to kindly convey my hearty thanks to the Commissioner, C. D. and Government for their remarks on my last year's Administration.

I have the honour to be,

Sir,

Your most obedient servant,

(Sd.) M. J. NAIK NIMBALKAR,

Chief of Phaltan.

List of Appendices accompanying the Annual Administration Report of the Phaltan State for the year 1914–1915.

No.	Names of Appendices.
